1 Dies, 4 Hurt In Crash North Of Tinley Park

One person was killed and four escaped with minor injuries as a result of a 3-vehicle accident on Route 6, two miles north of Tinley Park and half a mile west of Harlem ave. The accident occurred about 6 a.m. Saturday.

James C. Cook, 21, of Wilmington, Ill., an employee of the Caterpillar Co., and leader of a small dance band, was pronounced dead on arrival at St. Francis hospital, Blue Island.

A passenger in his car, George Keagle, 26, also of Wilmington (Will county), Carl Lloyd, 38, and the latter's wife, Bernice, 36, of Parma, O. were treated at the hospital and released, and the driver of the trailer truck, Robert Steinbach, of Port Washington, O., with which Cook's car collided, was taken into custody by state police from District 4 on a technical charge of reckless homicide.

Cook's car was practically demolished. The left front wheel of the truck was ripped off and the vehicle went out of control, crossing into the west bound lane where it struck the left rear bumper of the Lloyd car, sending the Lloyd automobile off the pavement and into a culvert.

Cook came to Wilmington about a year ago from Arkansas. He recently made a record for JOPZ and was to have spent his vacation, which was to have begun Monday, making personal appearances in Arkansas playing his guitar and singing. For the past several months Cook was heard over WJOL Joliet, Sunday afternoons and his band broadcast from Swing Inn, south of Joliet, over the same station. Cook was married and has a child.

Wm. Wannemacher, Former Tinley Park Trustee, Dies at 78

William Wannemacher, 78, of Tinley Park, died Saturday, June 30, at Ingalls Memorial hospital, Harvey, following a short illness.

Mr. Wannemacher was born

Break Ground For New Recreation Project at Park

Ground-breaking ceremonies for the multi-purpose courts being installed in Memorial Park for the youth of the community were held last Sunday afternoon.

The courts, which are being donated by the Tinley Park Recreation Commission, will be used for tennis and basketball. By removing the basketball posts, the surface may be used for other activities.

Present at the ceremonies when Al Brandau operated the excavator were Esther Malone, VFW auxiliary representative, Elmer Knudsen of the Lions club; Mike Haber, president and George Klaus, past president of the Recreation Commission. Also Henry Bettenhausen, representative at large, Recreation Commission, Joseph McCarthy, park commissioner and police chief Harold C. Moore and Selby Hirsch, one of the founders of the Recreation Commission and a treasurer for many years. An additional note on Selby Hirsch—over the past years it is understood he has contributed possibly more free time to keep the park available for public use than anyone. He is one of the backbones in seeing that recreation for the youth of Tinley Park is provided for in many ways. The people of Tinley Park should extend their thanks and appreciation for the work that this man has done.

in Frankfort township but had lived practically his entire life in Tinley Park. He was a well driller and his work took him to all parts of the area. He was a former member of the Tinley Park village board.

Surviving are a daughter, Bernetta, Mrs. Max Christl, of Manila, P. I., who came here with her husband and child three weeks ago for a visit, before her father was taken ill; one son, William E. of Tinley; one sister, Mrs. Rose Ganser and a brother, Peter, of Dickinson, N. D., and another brother George, of Tinley Park and five grandchildren.

Funeral services were held Tuesday afternoon at the Zion Lutheran church in Tinley with the Rev. Randolph Hahn officiating. Burial was in the parish cemetery.

Tinley Park Times Makes Bow Today in New Tabloid Form

Savings and Loan Group Seeks Charter to Operate in Tinley

Tinley Park is to have a savings and loan association.

Impressed with future possibilities of the community a State Auditor Orville Hodge group of men have applied to for a charter for such an institution.

Edward L. S. Arkema, attorney for the group, said that he expected the charter would be granted within the next 60 days.

The state auditor has set Aug. 3 as the date for hearing on the application should anyone file a written protest within the 10-day period preceding that day. If no protest is filed there will be no hearing.

The application carries the names of five men, Kenneth H. Katschke, Ray Ambrose and Thomas Curran, of Chicago; Charles M. Smith, of Tinley Park, and Leonard Cooper, of Palos Park.

Katschke is president of the Kenorthy Millwork Co., Inc., and Distinctive Homes, Inc., a director of the South Side Builders club and is interested in various other businesses. Ambrose is president of the A. M. Sunrise Construction Co., and a member of the Chicago Metropolitan and South Side Builders clubs and the Chicago Real Estate Board. Cooper is a builder and real estate man and Charles Smith, a Tinley Park hardware dealer, is president of Tinley Park associates, now developing industrial sites here.

By 1980 the population of Tinley is expected to be 25,000, according to the statement accompanying the application for the savings and loan company charter. As of now it was estimated the population of the area within a 5-mile radius of Tinley is approximately 19,000 and 160,000 in a 10-mile radius.

"My clients," said Attorney Arkema, "believe the growth and future of Tinley Park warrant the establishment there of a savings and loan association."

A large number of homes will be built in the years to come and a saving and loan company can be of tremendous assistance to the people and the community. There is no such institution in Tinley now and we believe one is needed."

Some of the men represented by Arkema plan to build 300 or 400 homes in Tinley themselves within the next two or three years, he said.

Arkema is attorney for the South Side Builders club, the Southwest Suburban Builders club and the Home Builders Council of Cook Co.

He pointed out that savings and loan companies had played a major role in financing housing needs. They were pioneers in the use of the amortized loan by which a person can make monthly payments that include principal, interest, insurance and taxes.

This form of loan has enabled persons to build and own homes who otherwise would find it most difficult if not impossible. Savings deposit will be insured.

The Tinley Park savings and loan association will begin operations in temporary quarters but plans to erect its own building. Several locations are now under consideration, it was said.

Congratulates Tinley Park Times On New Plant

Congratulations on the move of the Tinley Park Times in establishing a plant on Oak Park ave., were received from Rudolph Petan, operator of a restaurant and fountain.

"I remember well the situation Tinley was in when I started this business," Mr. Petan said. The activity, and growth of the community and of business in the past two years is the greatest in Tinley's history.

"The thinking and activities of the people here are different than they were. The general increase in retail business and the planning of the village has made cooperation compulsory to meet the problems of tomorrow."

"The move to establish the Tinley Park Times here on Oak Park ave. is a step that will help the community. My staff and I are proud to congratulate the Tinley Park Times on its new venture. We want to take this opportunity of expressing our appreciation to the Times for its service to the community and offer a helping hand where ever we can to assure its success. Good luck, Tinley Park Times."

Combined sales of E & H Savings Bonds totalled \$37,090,171 in May of this year, 1.27 percent above total sales for the same month in 1955; sales in Illinois for the month of May accounted for 8.9 percent of national sales which totalled \$418,141,000.

The Tinley Park Times makes its appearance today in its new form.

This newspaper has been serving the Tinley Park community for the past 38 years and expects to continue to do so 38 years and more.

To keep step with growth of Tinley Park The Tinley Park Times has moved into larger quarters and is installing machinery there. Some of it is already in place. More will be added.

The new quarters of The Tinley Park Times is at 17729 Oak Park ave.

Marvin Smith, the general manager of The Tinley Park Times announced that the policy of the paper would be to give full coverage of the news of the community and its people.

"We know that the change from our former size to tabloid entails many details that cannot be worked out over night," Mr. Smith said.

"We shall endeavor to give you more news concerning your community and all the phases that make up community life, so that every resident can become familiar with all that is going on in the civic life of the village."

"We are ready to lend a helping hand to any worthy organization. We will appreciate the cooperation of the public in filling both our news and advertising columns."

"This is your paper and we want you to make use of it."

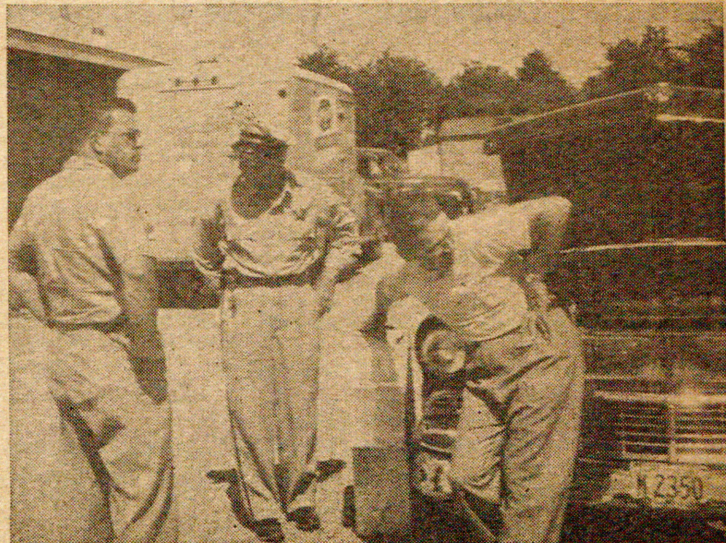

The telephone number of the Times new quarters is the same as it was for the former office—Kellogg 2-4728.

Mrs. Adeline Semmler Smith will be assistant editor and members of the staff include Mrs. Ruth Jochum, Mrs. Mercia McCutchen and Mrs. Anne Rodger.

The Tinley Park Times may be purchased on stands at Cavett's drug stores, Rudy's fountain and restaurant, Try's Chicken Farm, and Parkside Grocery. The paper also is distributed thru the mail or by carrier.

Panels for Navy buildings in the Antarctic are made like sandwiches: inside aluminum for vapor barrier and fire protection plywood, spun glass for insulation and more plywood.

Electric Policeman Never Misses

The electrical timing device put into use in Tinley Park to clock speeders does its job without fuss, feathers—or mistakes, its makers state. Officer Peter Seeley is shown here operating the machine while Chief Harold C. Moore stands by. The man on the extreme left is a passer-by who paused for a moment to find out what was going on. Story on Page 2. (Times Photo)

Police Tag Record Number of Speeders With New Machine

The Tinley Park police department placed their new mechanism for clocking speed of cars into operation for the first time last Thursday from 2 to 10 pm. During that time they handed speeding motorists as many tickets as they had issued the entire month—15.

The first motorist tagged for speeding was from Mokena.

Police Chief Harold C. Moore says the device is a much better method of apprehending speeders as there is always the possibility of the squad car being involved in an accident when chasing speeding cars.

The speed limit on Oak Park ave. is posted at 25 miles an hour.

Speeders Reaction

While the police department is pleased with the new apparatus, two Tinley Park residents who received tickets for speeding, were irate about the whole business.

"I don't think it is fair" grumbled a motorist, M. V. Veleta of 6637 174th pl., who was tagged as he drove 35 miles an hour in the 25 mile an hour zone.

"There were a lot of people around the machine. I saw the squad car and thought there had been an accident. Naturally my attention was diverted from the speedometer and focused on the gathering of bystanders."

His reaction to the whole business is that the police could write a lot more tickets if they tagged speeders in the morning rush hours when business men are driving 50 to 60 miles an hour to catch trains. He is real burned up about receiving a ticket for driving 35 miles an hour.

He admitted to breaking the law by driving 10 miles over the

speed limit, but claims he will pay the fine under protest.

First Ticket

It was the first ticket ever received for speeding by another motorist, N. C. Fortman, 6602 174th st., in his 18 years of driving. He covers 26,000 to 30,000 miles a year.

He was even more voluble in his denunciation of the police department, in fact the whole village administration for allowing the installation of what he termed, "The policemen's new toy."

"We really need this in Tinley Park and I am delighted to have it," he replied sarcastically when asked what he thought of the new speed timing machine.

On the other hand, residents living on Oak Park ave. believe it is "a wonderful thing". They say too many cars are speeding, making it hazardous not only for children, but for adults to cross the street.

Bert Jeveret Gets Discharge from Navy

Bert Jeveret of Tinley Park has just been discharged from the U. S. Navy at San Diego, Calif. where he has been stationed for the past two months.

A graduate of Thornton high school, Jeveret enlisted in the navy after attending Junior college for one term.

The electronics 3rd class seaman has served on board a destroyer and was stationed in Japan for eight months before returning to the States.

He and the former Beverly Pokorny of Tinley Park were married July 23 of last year and live at 17204 Oak Park ave.

Arrest Youth For Larceny Solves Burglary in Tinley Park

Burglary of a home on New England ave. in Tinley Park last Jan. 4, has been cleared with the arrest of James Packmayr in Blue Island on June 19.

Packmayr was arrested on the complaint of Sanford DeBlake, 17722 Highland ave. He reported to county police that \$80 was missing from his home and accused the youth, who had been living there, of stealing it.

The county police relayed a tip to Blue Island police that Packmayr was at the Rock Island station there. The boy surrendered without resistance and was turned over to Officers James H. Kane and Michael Mudryan of District 6, of the major investigation unit.

Tinley Park Police Chief Harold C. Moore questioned the youth in regard to burglaries committed here.

Packmayr admitted entering the home of Lewis Betzweiser on New England ave. last January, but denied knowledge of any other burglaries in the area. Further questioning revealed he had pawned an electric train, and sold a shotgun and revolver

which he had taken from the Betzweiser home. He was quoted by Chief Moore as saying that there had been another pistol in the lot but that he had thrown it in Lake Michigan.

According to Capt. Steve Barrett of Cook county police, Packmayr had a record. He is on probation under an 8-year sentence imposed in Kokomo, Ind., for stealing and cashing a government check. The youth, who originally hails from Kokomo, had been living with relatives in Tinley Park before moving into the DeBlake home.

When picked up, he had \$50 of the original \$80 stolen, police said, together with a \$30 pay check which he had earned. Packmayr made the check over to DeBlake so that the latter has had full restitution of the money stolen from him.

At a trial held June 22, Packmayr was sentenced to 60 days in county jail on a charge of petit larceny. Upon his release, he will be rearrested by Indiana authorities to serve the 8-year sentence in that state for violating his probation.

EDITORIAL

Deadly Automobiles

In 1903 there were 466 fireworks deaths in the United States. Last year there was only one. Quite a record of progress.

Back in 1903 a rather ridiculous looking machine was just sputtering into being. Last year that machine—evolving from the ungainly horseless carriage into the sleek and powerful modern automobile—claimed 407 lives during the Fourth of July holiday.

Thus the net gain in our efforts to avoid holiday self destruction seems to be about zero. Yet there is a lesson to be learned here.

Fireworks deaths on the Fourth have been almost eliminated because thinking persons revolted at such senseless killing, and state by state the sale and use of dangerous fireworks were prohibited.

No one, of course, is advocating that the sale or use of automobiles be banned. But we strongly urge the outlawing of their misuse.

Most people want to use their cars safely. But in every society there is always a minority of reckless and irresponsible drivers who turn a deaf ear to all appeals for prudent and common sense behavior.

It is for this group that the National Safety Council and the International Association of Chiefs of Police have jointly recommended a rigid law enforcement policy by all police agencies during the Fourth of July celebration.

We strongly support this recommendation. A traffic accident emergency faces this country, with a new all time high death toll in prospect. It is time to stop temporizing with this problem. The Fourth of July holiday is a good time to start getting tough.

Chamber of Commerce Works for Betterment of Tinley Area

The Tinley Park Chamber of Commerce was organized in 1955 to replace the Tinley Park Businessmen's Association. It was thought that the Chamber of Commerce would be helpful to the community.

During its short time of operation the Chamber of Commerce has become an organization of some ninety members, representing businessmen, professional men and citizens of the community. As its first objective, the Chamber has promoted planning for the community in order that the growth would not produce undesirable areas of housing and the development of business and industry in restricted areas, thus providing a community desirable for good living.

During the year or more of its existence, the Chamber of Commerce has presented experts on community planning in order to better understand all phases of planning for Tinley Park.

Promotion of business within the community has been another phase of concern for the Chamber of Commerce, since good business relations with the home town folks creates many community benefits. Merchants realize that they have a great responsibility to the town in which they operate their business and they can best serve the town if the people do their part by shopping with the local merchant.

The Tinley Park Chamber of Commerce, during its short period of existence, has done much to promote Tinley Park under the able leadership of its officers, Harry J. Dean, president; Carl Leonard, vice president; William Freiberger, secretary; and John Devlin, treasurer.

The tasks of the Chamber of Commerce have grown so rapidly that in order to carry on its business properly, three months ago it was necessary to employ a full time executive secretary, Harry W. Trevarthen. During the three months of his employment membership has increased by one third, committees have been functioning more efficiently and much more enthusiasm has been demonstrated within the Tinley Park Chamber of Commerce.

Legion Post In Tinley Dates Back To 1929

The American Legion, department of Illinois was formed in May, 1929. A member of the eighth district and incorporated. The first official meeting was held April 29, 1929.

Frank Hoar was elected as the first commander. There have been 25 commanders to date, some having served two terms. Two of this number have died.

The Legion is active in community service by assisting families in distress, donating flags to schools, aiding Veterans to obtain entrance to Hines hospital, and filing of their claims.

They are the sponsoring agency of the Sons of the Legion, Junior Legion baseball group and Boy Scout troop.

Special citations from the Federal Bureau of Investigation are among the cherished awards in their possession. Also honors received for having the Legion colors presented at various conventions through out the years.

The regular meetings are open and visitors are always welcome. Following are a list of past commanders: 1929-30 Frank Hoar; 1931, George Rowden; 1932, Charles Wallin; 1933, James Barry; 1934, William Mabey; 1935, Walter Mager; 1936, Herman Freitag; 1937, Perry Ward; 1938, Harry Brandau; 1939, Frank Baldwin; 1940, Charles Wolf; 1941, Raymond Jacobs; 1942, Boyd Carr; 1943, Lova Maxwell; 1944, Adolph Ceithaml; 1945, Clarence Hagedorn; 1946, Dennis Murphy; 1947, Martin Uthe; 1948, Norman Hansen; 1949, Henry Johnson; 1950, Raymond Jacobs; 1951, Frank Jeffords; 1952, Charles Wolf; 1953-54, Walter Diekmann; 1955, Gunnard Johnson and 1956, Gilbert Cloud.

It costs oil companies half a billion dollars to improve the quality of your gasoline by one octane number. Yet the average octane rating of your gasoline has risen from 74 to 84 in the past 26 years.

W.B.A. Provides Many Benefits To Members

In December 1937 and January 1938 the organizing of The Women's Benefit association, Sunset Review 160, was conducted

by Mrs. Loretta Howard, managing deputy of Chicago, of Review 39, assisted by Mrs. Dulcie Murphy of Review 72 of Chicago.

This Review was instituted and officers installed in April 1938 with ceremonies being conducted by Mrs. Bell Henricks and Mrs. Louise Carroll of Review 72 and Mrs. Loretta Howard presiding.

Their first president was Mrs. Irene Bartsch who after a few months resigned because of illness and whose term was completed by Mrs. Helen Johnston.

The meeting place was the P.T.A. room in the Tinley Park school. Because the space was needed, the Review met for a

short time in the basement of the Tinley Park Methodist church, then for a while in the village hall, the Bremen Township veterans hall and now they are meeting in the Legion building.

The W.B.A. is a fraternal benefit society giving safe protection to adults and juniors in the way of life insurance. It also aims to lend a helping hand in time of trouble, sickness or death. It also offers a social life to its members in the way of different clubs.

It has a beautiful ritual performed by a ritualistic and guard team.

Following are the past presidents: Mrs. Mildred Sayre, Mrs.

Tinley Lions Club now in 6th Year of Service

The Tinley Park Lions club was organized Oct. 12, 1949, when a group of men interested in community service met with a representative of Lions International in the Methodist church.

The club was officially presented its charter at a dinner meeting at Saenger hall Jan. 14, 1950. The roster included 55 charter members and the first list of officers included: Walter F. Fierke, president; William C. Rick, first vice president; C. M. Smith, second vice president; Dr. J. L. Gonzalez, third vice president; Donald R. Mason, secretary; M. E. Keup, treasurer; Robert Bridge, tail twister; Robert Smith, lion tamer and Henry C. Vogt, Dr. A. R. Bovik, Edward Prosperi, Harry A. Mager, directors.

At the beginning the club met in the lunchroom of the Tinley Park school. Later the meetings were moved to Saenger hall and are still held there on the second Wednesday of each month.

Among the community projects prompted by the Lions club were provisions for school crossing signals, street painting for parking on Oak Park avenue, providing the first rescuerator for the village of Tinley Park, providing street signs, assisting various individuals in need, assisting various organizations in carrying on their activities, providing the excess cost of the home-school communications system for a "home bound" pupil, co-sponsoring a dance which launched the Tinley Park community library and sponsoring the mobile X-Ray unit in Tinley Park for the past several years. The Lions club also sponsors

Brownie troop 315, Intermediate troop 97, and Senior troop 225. Past presidents of the club are:

W. F. Fierke, 1949-50, 1950-51; Robert Watkins, 1951-52; J. C. Libbey, 1952-53; Norman R. Wolfe, 1953-54; Robert Chana, 1954-55, and Leslie Johnson 1955-56.

On June 21 the club installed Robert Rawson as its eighth president at a ladies night at Saenger hall. Other officers installed were:

John Dotts, first vice president; Elmer Knudsen, second vice president; Charles Welch, third vice president; Kenneth Fulton, secretary; William Kopp, treasurer; John Paul, tail twister, and Ken Schmudde, Lion tamer, and directors Donald Hollingshead, Harry Schmidt, Leland Rayson, and Phil Virtue.

Aim of Garden Club is to Add Beauty to Town

On August 25, 1927, in response to an invitation from Mrs. Wallace B. Combs, a group of ladies met at the Gift Shop on the second floor of the Schreiber Building for the purpose of organizing a Garden Club, to be known as the Tinley Park Garden Club.

The purpose of the club was to add beauty to the home town, to study flower culture, and confer with members on garden plans, to hold annual flower shows and the presentation of a community Christmas tree.

The first officers of the club were: Mrs. Wm. Funk, president; Mrs. Wallace B. Combs, vice president and Mrs. W. C. Schuamburg, secretary and treasurer.

Soon after the club was organized, steps were taken to improve the grounds south west of the Rock Island tracks, which

at one time was a dumping ground. Drainage tiles were laid and water was piped for sprinkling convenience. On October 22, 1927 a living Christmas tree was planted on this property and for many years Christmas services were held and goodies distributed to the children. However, in view of the urgent need for additional parking space at the Rock Island depot, the beautiful landscaping had to bow to progress.

Through the years many projects have been sponsored, and though the ranks of the original members have been thinned by time, they are not forgotten.

The present officers are: Mrs. Florence Feil, president; Mrs. Mrs. Edmund Moss, secretary; Mrs. Walter Zawadzki, treasurer; Program Chairman, and Mrs. R. J. Hug, Publicity.

The Tinley Park Garden Club began with 11 members and now has a membership of 22.

It became affiliated with the Illinois Garden Club in February 1928.

The Tinley Park Garden club produced 11 flower shows with the last held in 1949.

Junior Hog Show Set For August

The 17th annual Chicago Junior Hog show and Marketing day is scheduled Aug. 21 and 22, it was announced today. It will be held in the new 4½ acre addition of the International amphitheatre.

The event is sponsored by the Union Stock Yard and Transit company operators of the Chicago market and is open to 4-H and FFA boys and girls having swine projects.

A two day event is planned this year because of the increasing size of the show. Show sponsors point out that the extra day will permit more time for educational features and also give more opportunity for the participants to see the open market hog selling procedure at the Chicago Stock yards.

Trinity Lutheran Congregation Begins Planning for Centennial

by the Rev. Carl Hoeh

The congregation of Trinity Evangelical Lutheran church is already thinking about celebrating its centennial for the church was founded in 1859 by Pastor Stubnatzy. Eleven pastors have served this congregation, the present minister being the Rev. Carl Hoeh.

The congregation's first building had two floors and served as the church, the school, and the parsonage. Soon after 1861 the first church building was erected on the present site. When in 1883 the congregation wanted to assemble for Christmas day worship, they found that their church had burned to the ground. The present church, sometimes called the Church on the Hill, was built in 1884. It was remodeled extensively in 1943. The pipe organ was rebuilt and enlarged in 1952. Improvements were made in the chancel in 1955. The original parsonage was severely damaged by fire in February 1952 during the vacancy. The older part was dismantled and the new part was moved to the Carl Engelhardt farm. The new ranch-type parsonage was dedicated on October 5, 1952.

Trinity School

The congregation from its very beginning maintained an elementary school. Until 1875 the school was taught by the pastor. In the year 1875 the first school was built and the first teacher was called. This school building was replaced in 1929. In 1949 this building was enlarged to accommodate the second class room. Provision was made for the third classroom in 1954. In the last school term 107 children were enrolled in the eight grades and were taught by three teachers, Mr. and Mrs. Otto G. Beccue, and Miss Roberta Will.

Parish Education

Parish education is one of the basic concerns of Trinity congregation. Its agencies of Christian education seek to provide an organized and systematic program of teaching God's Word to both young and old. It maintains a well-organized Sunday

School, and Bible Classes for all age groups. For adults who wish to join the church, regular information and instruction classes are conducted. It wants to lead people into the Bible and develop Bible-using Christians.

Organizations

To provide for the divergent interests of the members, various organizations exist within the congregation. The Ladies Aid was organized in 1922 to afford an opportunity for the ladies of the church to enjoy Christian fellowship and to cultivate the same for the welfare of the church. The Walther League is an organization for the confirmed youth, which promotes Christian knowledge, service, and recreation among the teen-agers. The mixed choir, the PTA, the bowling and dartball leagues occupy the members with worthwhile activities and promote good fellowship.

Of Missouri Synod

Since 1891 Trinity congregation is a member of the Lutheran Church, Mo. Synod, a church body with more than two million members in more than 5200 congregations. These congregations help each other in these main tasks: keeping the purity of doctrine, training pastors and teachers, publishing Christian books and literature, doing mission and welfare work, and promoting Christian fellowship.

Church and Community

In a growing community, Trinity congregation is striving to be a growing and going church that it might serve the spiritual and civic needs of the people. It realizes that what makes men good Christians also makes them good citizens. Additional land was recently acquired so that its plant and facilities might be enlarged and improved when the need arises. The 575 baptized souls belonging to Trinity church are committed to the two-fold program of GROWING in knowledge, wisdom and faith through the Word of God; and GOING into the world to preach the Gospel of Christ and Him crucified to every creature.

GRANDMA

knew the value
of soft water

But she had to get it
the hard way!

There was nothing like water from the old rain barrel out in back for shampoos that left the hair gleaming and full of lustrous highlights. But the barrel could go dry—or freeze over.

Today, you can enjoy the softest water this side of a rain cloud—automatically—just by turning the tap anywhere in your home.

Phone for a free demonstration. We'll show you how Culligan brings clear, filtered soft water into your home—on a service basis! No equipment to buy; no work to do. Call us today.

Deadly Dutch elm disease has spread to 75 counties in Illinois. The maps above show counties affected, left to right, in 1953, 1954 and 1955. During the next three months it may be expected to occur in any of the 27 counties not now known to be affected, the Illinois Natural History Survey says. It can be controlled but there is no known cure for the disease. Since dead and dying wood harbors the fungus causing Dutch elm disease and the beetles carrying it, all such wood should be burned. Individual healthy trees may be protected by a DDT spray.

State of Illinois—DDR

Organize Nazarene Church in Tinley on Easter Sunday of 1952

When the Lowell Farquhars moved to Tinley Park from Peoria a few years ago, they found it necessary to travel to Harvey to attend the church of their choice, the Nazarene church. After discussing the possibility of having such a church in Tinley Park with several families living in Tinley Park, they presented the problem to the Rev. Robert Sheppard, pastor of the Harvey church with happy results.

Cottage prayer meetings were started Oct. 11, 1951 and by Dec. 2 that same year, it was possible to have services of this faith in Tinley Park with the Rev. Mr. Sheppard as temporary pastor. Arrangements were made to use the former Royal Blue store at 6736 North st., and after much work to change the empty building into a presentable place of worship, "which is always accomplished with joy when a people have a mind to work" according to a spokesman, it was not long before services were being held there.

The organization of the church was affected on Easter Sunday April 13, 1952 with 25 members. A pastor was engaged, the Rev. Neal Kamp, thus relieving the Rev. Mr. Sheppard who was helping out the new congregation.

On March 8, 1953 it became necessary to give up this location when the building was leased for other purposes. The village board at that time, graciously came to the rescue by permitting services to be held in the village hall where they continued until Feb. 14, 1954.

It was June 15, 1953 that the Rev. R. L. Lunsford, a professor at Olivet Nazarene college at Kankakee was called to be pastor of the church. During his ministry arrangements were made to secure ground and erect a new church building, at 171st and Oconto sts., where the congregation now meets regularly. The first service held in

this new building was Feb. 21, 1954. Being pastor of a church, supervising the erection of a new building for a church, is a full time task, but in addition to this the Rev. Mr. Lunsford had a full time teaching position at the Olivet college. Because of this heavy work, his health began to fail and it became necessary for him to resign as pastor. He was succeeded by the Rev. Ted Kerr, who took over the pastorate of the church Oct. 4, 1954 and is the present pastor.

Plans are in progress now to build a parsonage and additional space for more Sunday school rooms, to the east of the present church edifice.

Distribute 4-H Fair Tickets to Alpine Club

By Mrs. E. Mrosek
Fieldbrook 9-2841

Alpine, July 5—The Alpine Girls 4-H club met at the Maue school Monday evening June 26. The meeting was opened with the pledge of allegiance, Sandra Felsch presiding. Reports were given and a letter from assistant Farm Adviser William Whiteside thanking the club for its donation to the E. I. Pilchard Memorial fund was read. 4-H fair tickets were distributed.

Marie Meier played a piano solo and Delores Kohene showed how to make a sewing kit for carrying in the purse. Louise Brija gave a talk on proper grooming before preparing a meal. Kay Maue demonstrated proper table settings. Sandra Felsch gave a talk on making different kinds of sandwiches. Betty Jean Stellwagen gave a talk on the planning and prepar-

ation for a garden. Linda Lou Maysak gave a demonstration on how to make wall plaques.

Refreshments were served by Roberta Fandrey and Norma Albert.

John Lohmann, who, for several years coached Little League ball teams in this area, is, this year coaching the Orland American Legion team which is composed of boys in the 14 to 18 age group. The team competes regularly with other American Legion teams in the South Suburban Area.

Those who haven't already heard the news will be interested in learning that Norman Bernard is stationed at Worms, Germany.

Suggestions on How to Settle Insurance Claim

When you have an insurance claim, you will want to be sure to get the full benefits of your policy. You can get quick action if you file your claims right and know how to deal with the insurance adjuster, according to the editors of "Changing Times," the Kiplinger magazine.

Notify your agent at once. Many policies have notification time limits and if you are late, you may have trouble collecting.

Read your policy. Many a legitimate claims has been passed up by a policy holder who was not aware of how much protection he had bought.

Write down what happened. Get down every detail you can remember: time of day, witnesses, etc., whether it's a fire, theft or auto accident.

List the damage. The insurance company may require proof that damaged articles are really yours, so round up all evidence of your ownership, such as titles or bills of sale.

Estimate the amount of your loss. Your garageman will give you an estimate of car damage; in other matters, your canceled checks, receipts, etc., will come

in handy.

Once you accept settlement, you will be asked to sign a release stating that the insurance company has no further obligation. If you are not satisfied with the offer, don't accept payment and don't sign the release. Here are some steps you might take instead: Get new estimates or other evidence to support your claim. Consult a public adjuster. Pull your agent back into the act and see if he will go to bat for you. Ask for a referee

TINLEY PARK TIMES
Thu., July 5, 1956 Sec. 2 Pg. 3

appraisal. You can sue if you have complied with all the conditions of the policy.

Your best course is to know from the very start what's in your policy and to press for what's due you, no more and no less.

"Ignorance is so hard to conceal because people always try to hide it in a public place."—Raymond Duncan.

"EVERYTHING FOR THE CAR AND HOME"

TINLEY PARK, ILL.

Bremen Home Bureau Outlines Its Objectives

The Bremen Home Bureau is part of the cooperative extension program in agriculture and home economics directed by the college of agriculture, U. of I., and the U.S. Department of Agriculture.

It was organized to promote the development of home making to the end that every home may be founded upon mutual affection and respect, economically sound, mechanically convenient, physically healthful, morally wholesome, mentally stimulating, artistically satisfying and socially responsible.

The unit in Tinley Park known as Bremen is one of a group of about twenty units organized in Cook county in January 1941 with Mrs. Mary L. Wright as Home Adviser. At that time it had a membership of fifteen with Mrs. W. A. Kopp, chairman. Subsequently, Mrs. Marie Cornelius became Adviser with Mrs. Clarabell Upham as assistant.

Today the unit has a membership of 29, with Mrs. Upham as Home Adviser assisted by Mrs. Jessie Coulter. Mrs. Dorothy Freund is the present chairman.

Two Early Groups Unite to Form Present Day Methodist Church

Tinley Park Methodist church is the outgrowth of the uniting of two churches, each having quite a historical background.

The oldest congregation dates back to 1859 when the Rev. Mr. Blotch and the Rev. Mr. Rinder organized the "New Bremen Religious Society." In 1863 this society was sent its first regular resident pastor, the Rev. Mr. Fickenscher, and it was in that year the first quarterly conference was held.

Two years brought changes and the original sanctuary became too small. In 1886 the edifice known as the Orland Township Methodist church was built. This served the congregation for 52 years or until 1938 when fire, caused by lightning, destroyed it.

In 1905 a new parsonage was built in Tinley Park by the Rev. J. J. Mohr.

The younger congregation, the village church was organized in 1897 by Mrs. M. E. Padotski, who organized a Sunday school in the local school house. For preaching services she invited students of the Garrett Biblical institute. The Rev. A. F. Clark, a student became well liked and acquainted with the field and was its pastor for three years.

It was in his pastorate that this new religious group, "The

Tinley Park Union Church" united with the Methodist Episcopal church.

The merger of these two church groups, both belonging to the same conference and centered in the same village, was a step forward in their history. With this step a building program became a necessity and made for greater possibilities in the future than either of the two groups alone could have hoped for. So on Nov. 3, 1940 the new edifice, Tinley Park Methodist church was dedicated with the Rev. Lawrence E. Weinreich as the pastor. Dr. John W. Holland, radio minister of WLS who served Tinley Park as his first charge, was one of the many speakers at this service.

With the ever increasing growth of community and church, the building committee is again at work with plans for an educational addition under way. An average Sunday school attendance of 250 necessitated this move.

The Woman's Society of Christian service encompasses five circles, while the youth of the church have an active Methodist Youth Fellowship program.

Form M.L.S. Group Among Realtors in S. Suburban Area

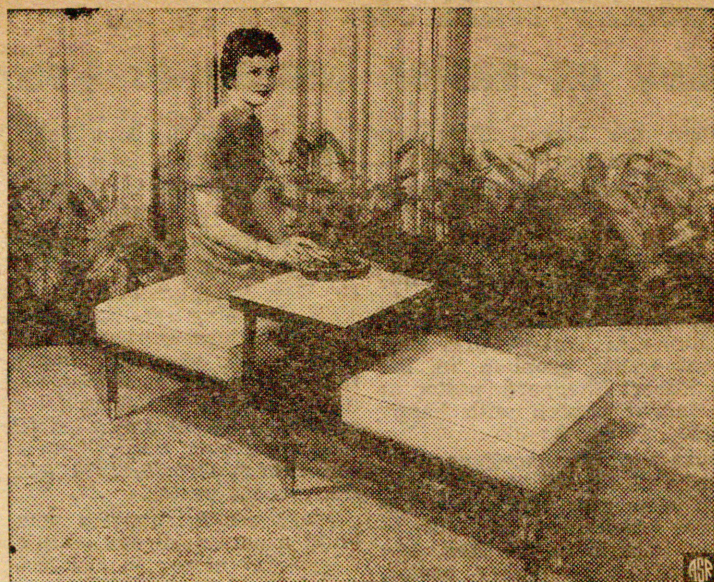

With a steadily growing market for homes, the countrywide "multiple listing plan" has been instituted in the south suburban area, it was announced by S. J. Levenson, president of the Greater Harvey Real Estate Board.

Persons who want to buy or who want to sell can make use of the plan which calls for the listing of a property with all of the real estate firms that are members of the Co-Operative Sales Service and Exchange.

There are 10 members in the South Suburban area with some 50 salesmen. The "multiple listing plan" originated five years ago and has been quite successful, it was said. Families are moving around the country more now than they ever have since pioneer times, and M.L.S. enables them to dispose of their property in one area and acquire new holdings in another.

Many persons, however, remain in one area but sell or buy to meet their living requirements, it was said. The average person today owns at least two or three home in a lifetime, a small one for a start,

Plastics Are Spring Tonic

Modern version of the gossip bench uses one melamine laminate plastic topped table to serve two seats. The table top is available in white or pastel melamine laminate; the vinyl plastic covered cushions in lime, coral, green, turquoise or white. Try it tete-a-tete under a long picture window.

Pastels, pacing the current color trend, keep up a clean front by ingenious uses of plastics in new furniture and appliances scheduled for spring furnishings and redecorating, according to Monsanto's color consultant.

The homemaker, who sets a premium on time and work saving, selects chests of drawers, TV tables and dressers which have tops made impervious to food and drink with white melamine plastic that can be "washed down" instead of polished. The use of the hard plastic in pastel colors as a liner for the drawers makes them permanently snagfree for sheer nylons, lingerie and cashmeres. Chests of drawers, backed with melamine plastic, fit into today's open planning as room dividers. Plastic covered headboards, sprinkled with star dust, are a dream to care for in new white vinyl plastic laminates spattered with gold.

Sofas and chairs are as practical as they are pretty for their sleek outlines are covered with washable vinyl plastic in a spring palette of colors.

Pastels make confections out of kitchens where major appliances are framed by pink, blue or yellow plastic tile alcoves and set on pastel vinyl plastic floors. A new refrigerator offers a choice of pastel colors in heavy gauge vinyl plastic panels that are adhesive backed, and can be changed with the color scheme.

PTA Has Been Busy and Useful Force in Tinley for 26 Years

Mrs. Albert Ickstadt was instrumental in the founding and organizing of the Tinley Park Parent-Teacher Association and held the first meeting February 1925, but it was not until 1928 that the Tinley Park P.T.A. became affiliated with the Illinois Congress of Parents and Teachers. At that time there were 20 members and since then the membership has steadily grown until now there are 700 members.

The PTA has done many things during its thirty-one years of existence in the way of beautifying and helping the school. To mention a few. The school library was started on a small scale and over the years the PTA donated \$50 a year for the purchase of new books and is still helping to maintain and take care of the books in the Library; Playground equipment was purchased for the use of school children. Several projection machines were purchased; kitchen equipment and installations; health equipment; and many other contributions.

The PTA continues to be an organization concerned mainly in the welfare of the youth of the school. It strives to acquaint the citizens with their school and to help bring about a high standard of education.

Past presidents of the organization are: Mrs. Albert Ickstadt, Mrs. Ida Brandt, Mrs. John Swisher, Mrs. Hilding Anderson, Mrs. William Frichau, Mrs. Ernie Anderson, Mrs. Raleigh Bagby, Mrs. Edward Henke, Mrs. William Kester, Mrs. Walter Johnson, Mrs. Burley Anfield, Mrs. Herman Freitag, Mrs. E. B. Campbell, Mrs. L. V. Bacon, Mrs. William Kopp, Mrs. Voris Miller, Mrs. John Devlin, Mrs. Cecil Bullock, Mrs. Edwin Hug and Mrs. P. L. Jochum.

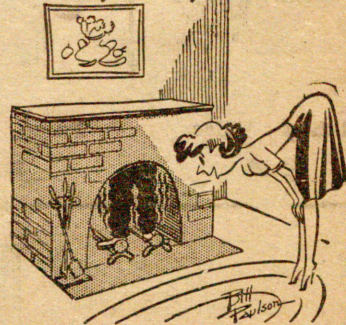

Mrs. Donald Hollingshead is the newly installed president.

CHRISTIAN SCIENCE CHURCHES

Humanity's need for effective prayer will be emphasized at Christian Science services Sunday, July 8.

Keynoting the Lesson-Sermon entitled "Sacrament" is the Golden Text from Psalms (19:14): "Let the words of my mouth, and the meditation of my heart, be acceptable in thy sight, O Lord, my strength, and my redeemer."

The importance of earnest

prayer to God is brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, which will include the following (4:3-9): "What we most need is the prayer of fervent desire for growth in grace, expressed in patience, meekness, love and good deeds. To keep the commandments of our Master and follow his example, is our proper debt to him and the only worthy evidence of our gratitude for all that he has done."

Care of Disabled Vets Major Project of Legion Auxiliary

Tinley Park unit 615, American Legion Woman's Auxiliary was organized Jan. 30, 1932 in the Community hall, 67th Ct., Tinley Park.

The organizer was Charles Wallin, commander of the Tinley Park post and Marie Suthers, fourth district director.

The Auxiliary was formed for the purpose of aiding the American Legion in carrying out the great program of peace-time service to America to which the Legion is dedicated. All the Auxiliary's activities are designed to promote the Legion's work and assist it to reach the objectives. Although working independently on projects of their own, the Auxiliary has no purpose that is apart from the aims of the Legion. It is in every sense an "auxiliary" to the American Legion and its members serve side by side with the men of the Legion in a spirit of unselfish devotion to the well-being of the American Republic.

One of the major activities of the American Legion Auxiliary is the great task of caring for disabled veterans of World War I and II who are still hospitalized. And also assisting thousands of other veterans to regain a place in civilian life.

The unit has helped many needy veterans families by purchasing coal, medicine, clothing, food, paying for utilities, and performing many other services. They also visit veterans in hospitals, purchase cigarettes help with the "Gift of Yank" program and have given the 24th annual oyster supper at Orland Convalescent Center on Christmas Eve. This money has been raised thru many financial endeavors.

The Auxiliary has contributed to the following hospitals, Hines, Manteno, Kankakee, Dwight, Orland, Oak Forest, Downey, Jacksonville, Dixon, M.T.S., Quincy, North Riverside, Alton State and others.

Its Child Welfare program is built upon the pledge to maintain the integrity of the Amer-

ican family home. The unit has sponsored children at the Illinois Soldiers and Sailor school at Normal, donated to the Audy Home, bought clothing for needy children in our community, sent articles to St. Vincent orphanage and helped in many other ways. The slogan is "A Square Deal for Every Child."

The unit has helped serve the local community by sponsoring Girl and Boy Scout troops, helping at carnivals, purchasing flags for five schools, giving Americanism programs, marching in parades and giving flag codes to schools. Many things have been accomplished over the 25 years since organization.

Membership in the Auxiliary is limited to women who have direct personal connection with World War service thru a member of their immediate family who served with the armed forces during the wars or thru their own service with armed forces.

Mothers, wives, daughters and sisters of members of the American Legion are proud of the accomplishments during the 25 years of "Service to God and Country."

Past Presidents of the unit:

Frances A. Rowden, 1932-33 and 1954; Margaret West, 1934; Minnie Felten, 1935; Trudie Swisher, 1936; Ruth Freitag, 1937; Mamie Brandau, 1938 and 1955; Viola Carr (deceased) 1939; Frances Ceithaml, 1940; Erna Wallin, 1941; Myrtle Wolf (deceased) 1942; Marie Hagedorn, 1943 and 1952; Dena Hansen (deceased) 1944-45; Gertrude Jacobs, 1946-47 and 1956; Lottie Rasmussen, 1948; Evelyn Olsen, 1950; Doris Johnson, 1951 and Florence Feil, 1953.

To remove wallpaper easily, add two tablespoons of vinegar to a pint of water, spray the mixture on the paper with vacuum cleaner attachment. One minute soaking, and paper comes off easily.

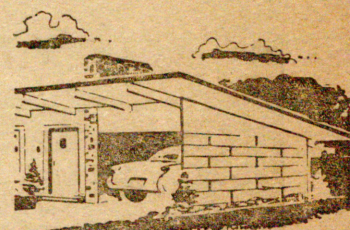

Carport with Woven Fence

A CARPORT with a woven wall makes a low-cost, interesting and mighty useful addition to any house. This is especially true if the carport has a storage area for garden tools.

Such a carport is shown in the illustration. A free plan for its construction is available.

The handsome woven wall is made by weaving strips of Masonite 1/4" siding, one foot wide

and eight feet long, between 4 by 4-inch posts set into the concrete driveway. Readily pliable for this weaving process, the Masonite siding is easy to work with, as it is splinter-free and free of defects. It takes a beautiful paint finish and will last for years.

An important feature of the garden tool storage room is the "Peg-Board" paneling on which may be suspended the various tools by means of interchangeable metal fixtures. These perforated panels, the lumber and other materials needed for this project may be obtained at lumber yards. For the free plan write to the Home Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill., requesting Plan No. AE-296.

KE 2-4556

Police Department Now Includes Force of Trained Volunteers

Available data concerning Tinley Park police goes back to Constable Fred Schmiedeknecht who served the village in two capacities, that of water pumper and ringer of the curfew. These two duties he performed with conscientious dignity for some forty years.

As the village grew and speeding became a public nuisance, the fathers of the town decided a motorized policeman was needed. They employed one - one that could provide his own motorcycle. The employment lasted but a short time and the reputation he left here was one of terrorizing and handing out tickets to all out-of-town motorists. He was known as the "hard boiled" cop.

ance, the fathers of the town decided a motorized policeman was needed. They employed one - one that could provide his own motorcycle. The employment lasted but a short time and the reputation he left here was one of terrorizing and handing out tickets to all out-of-town motorists. He was known as the "hard boiled" cop.

Christ Steinhagen was the next police officer and served for approximately sixteen years. Officer Robbins of Blue Island was in the village's employ for several months and Norman Robinson became the next Tinley police officer. Robert Wagner was appointed a year later to assist Robinson, who subsequently left to enter service with the Cook county police. At the time the police commission was formed. Harold C. Moore was appointed and given the title of captain with Wagner as sergeant. Wagner requested a year's leave of absence and did not return at the end of the leave.

The personnel of the Tinley Park police department today is as follows: Chief of Police Harold C. Moore; Peter Seeley, acting sergeant, and reserve patrolmen Richard Erskine, Charles Johnson, Pete Piazza, Ralph Biglow, Allen Bettenhausen, Wilbert Mager, Harry Patton and Paul Leland, the latter being in the juvenile division.

At the time of the appointment of Moore as chief, on May 1, 1953, Tinley Park police department was composed of two men; the chief and one patrolman to handle all police problems. It was quite evident that a properly organized department and additional help were necessary. In April of 1954 a referendum was presented to the voters for a fire and police commission, which was voted in. A reserve program was inaugurated which provided 10 extra policemen to assist when the need arose. Chief Moore conducted a school each month for the reserve police so that they might gain a better knowledge of police work.

With the cooperation of the commission, a dance was given, the proceeds of which went toward the purchase of new uniforms and a new car, which the village was unable to buy.

Since the first dance, the police department has had three others and acquired much necessary equipment; two automobiles, a new radio, ten guns, fingerprint equipment, complete winter and summer uniforms for all Reserve Police, which have commanded respect from all the citizens and other police agencies in this area. Most of the police officers have attended schools for the second time and have received certificates from schools sponsored by the F.B.I. Illinois Chief of Police and the Illinois Police Association. The police department has endeavored to present to the different village organizations the situation and safety on bikes for the children.

VFW Auxiliary Has Important Role in Community Activities

March 22, 1941 was the first joint installation of Bremen Post VFW 2791 and the Auxiliary. The ceremonies were held at Saenger hall and attended by an overflow crowd.

Mrs. Mary Maxwell took office as first president of Bremen Auxiliary. Her officers were Mrs. Viola Carr, Ethel Cupp, Dena Hansen, Dulcie Murphy and Myrtle Wolf.

The first Auxiliary meetings were held in the village hall and later were held in member's homes. On Jan. 27, 1943 the Auxiliary held its first meeting in the newly acquired clubrooms at the present location.

Mrs. Maxwell served two consecutive terms as president and a third term in 1954.

From the inception, the Auxiliary has been active in all civic and patriotic endeavors. It participates in the March of Dimes campaign, Red Cross, Heart Fund, Salvation Army, Recreation commission and gives a helping hand to various Girl Scout and 4H groups. The main theme is to help the Veteran. Many hundreds of hours have been spent working at Hines hospital and selling poppies on Poppy Day. In the last two years they have assisted at the Post sponsored Teen-age Canteen.

iliary has been active in all civic and patriotic endeavors. It participates in the March of Dimes campaign, Red Cross, Heart Fund, Salvation Army, Recreation commission and gives a helping hand to various Girl Scout and 4H groups. The main theme is to help the Veteran. Many hundreds of hours have been spent working at Hines hospital and selling poppies on Poppy Day. In the last two years they have assisted at the Post sponsored Teen-age Canteen.

The Auxiliary has progressed from 16 members to a present membership of 72. The present officers are Bess Seeley, Ruth Rump, Kay May, Ida Haber, Myrtle Houle and Ann Morrison.

Summer Fun Under Way at Wonderland

Summer fun at Wonderland, the Salvation Army's camp six miles northwest of Antioch, got off to a rollicking start yesterday, June 27, with the arrival of the season's first guests—150 Golden Agers.

This marks the fifth year that a special camp session has been held for men and women of 60 years and older. Following the Golden Agers' 12 day vacation, Camp Wonderland will be host to 600 needy mothers and children of the Greater Chicago area—200 at a time—for 10 day periods from July 10 thru August 13.

Summer vacations in the country for needy mothers and children have been provided by the Salvation Army since its first "fresh air camp" was held at Glen Ellyn in 1904. The present 70 acre rolling woodland location, acquired in 1924, is on County Highway SA at the edge of the Wisconsin community of Camp Lake.

Eighty seven buildings — including a new recreation building in the Shagbark section—are scattered over the camp area. Comfortable cottages and cabins accommodate 15 to 20 guests each. Colorful formal gardens dot long stretches of well kept lawns, and, towering trees are in the background.

Center Lake, a quarter of a mile wide and a mile and a half long, attracts swimmers, boaters and fishermen. The recreational program also includes group games, hikes, picnics, campcraft, woodcraft and classes in swimming, handicrafts and nature study.

The large playground area includes a baseball diamond, sliding boards, teeter totters, swings and other outdoor amusement equipment.

A modern nursery, with a trained nurse in charge, cares for infants and toddlers. Infants may be left in the nursery, and toddlers in the special nursery play yard so that mothers can participate in recreational activities.

In another section of Wonderland—a wooded area known as Camp Shagbark—approximately 180 young musicians from the Army's Scandinavian and Metro politan divisions will attend the United Music camp July 2-9. Boy Scouts and Girl Guards from the Scandinavian department will camp at Shagbark July 9-16.

The Central Music institute for 110 delegates from the Army's 11 state Central territory is scheduled for Shagbark Aug. 17 to 27. Guests are chosen by The Salvation Army's Family Service department on the basis of need for a vacation, without distinction as to color or religion. Referrals are accepted from other Salvation Army departments and corps and from Chicago's other social agencies. Seventeen agencies will be represented during this summer's camping season. Before going to camp, each guest has a thorough physical examination.

Col. John C. Marshall, welfare secretary, is director of Camp Wonderland and Brigadier Raymond Youngberg is assistant director.

"A woman has two reasons for buying something—because no body has it, or because everybody has!"—H. G. Hutchinson.

Tinley Park, Ill.

The Tinley Park Retailers Council was organized at the beginning of the year with three aims:

- 1.- To promote better business.
- 2.- To arrive at better business methods.
- 3.- To solve problems of general concern to the retailer.

The first meeting was held Jan. 23, 1956, following a dinner at Saenger's hall. Officers were elected as follows:

Henry Bettenhausen, president; Charles M. Smith, vice president and Betty Sielaff, secretary.

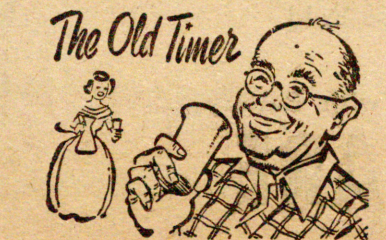

Mr. Bettenhausen and Mr. Smith are both hardware merchants and Betty Sielaff operates the Tinley Park Hobby Shop.

At the time of the formation of the council Mr. Bettenhausen stated that it was not a rival to the Tinley Park Chamber of Commerce. Most of the members of the council also are members of the Commerce body.

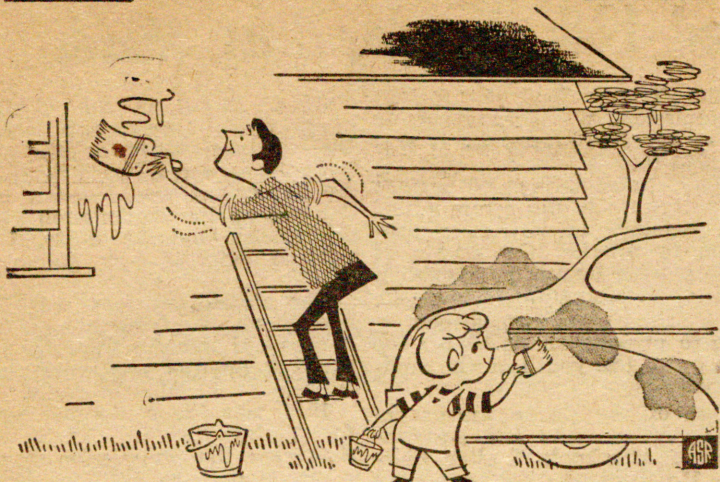

"It's just that retail merchants and those who sell services have problems of their own, that are different than those affecting other types of business," said Mr. Bettenhausen, "and this sort of organization will help us to work them out."

Promotion of sales events is one function of the body. Screening solicitors for advertising, promoters of telephonic sales drives and other processes that are annoying to householders as well as to merchants are also a duty of the Council.

The group meets the fourth Monday of each month at Saenger's hall. The business session follows a dinner.

"Seems to me that dieting is
a thing of mind over platter!"

Enough Of A Good Thing Is Enough

Protein has become a household word. Protein, like June, is busting out all over, wherever the topic is food for health and energy.

What is protein? "It is the stuff our bodies are made of." It is found in every living cell, in hair, bones and muscles. Tissues continually are being rebuilt, and in children, new tissues formed. The emphasis is on protein because only food protein builds tissues. Fortunately, it is distributed widely.

Important animal protein foods are meat, fish, eggs and milk. Vegetable protein foods include those products made from grains. A top quality one is enriched bread. Beans and peanut butter are other good protein foods.

Science has shown that a combination of two or more proteins gives greater benefit than if the same foods are eaten separately. Furthermore, a small amount of animal protein in each meal improves the body's use of all protein eaten. A good example is a sandwich made of enriched bread with a meat filling; the bread and

meat proteins supplement each other.

Protein serves not only as a builder of tissues but it also provides a generous amount of energy. Equal weights of protein and carbohydrate produce exactly the same number of calories—four calories per gram. If an excess of energy is provided by eating either more protein or carbohydrate than is needed, this excess is stored by the body as fat. Enough protein to satisfy tissue needs and furnish a moderate safety factor is enough—excesses become expensive fuel and fat.

Popularity and importance of protein have resulted in a high consumption of these foods. Currently, the average adult diet exceeds the generous protein allowance recommended by the National Research Council.

A simple guide for grownups is found in the Basic Seven Food Chart. Daily, eat a good serving of meat, poultry, or fish; one of the following—eggs, cheese, or legumes; six slices of enriched bread and one pint of milk.

are being loaned to museums and educational institutions from coast to coast.

During the past year, works from the university's collection have been shown in Chicago, Denver, Kansas City, Washington, San Francisco and Seattle, New York, Boston, Los Angeles.

When not out on loan, they are exhibited informally as space permits in the Architecture building on the campus.

Wife of Tinley Pastor Installs WSCS Officers at Orland Park

By Mrs. Sherman Knox
Fieldbrook 9-0211

Orland Park, July 5—The Woman's Society of Christian Service of the Orland Park Methodist church met June 28 at 1 p. m. in the church. Mrs. Stewart Loebe, retiring president, was in charge of the devotions. As this was the final meeting of the year and the beginning of a new year, she read verses from Genesis - "In the Beginning God" etc, and closed with a prayer.

Mrs. Glenn Ames, wife of the pastor of Tinley Park Methodist church, installed the newly elected officers. She addressed the group on the theme of, "The Praying Hands". Mrs. Ames displayed a chalk sketch she had made of the Praying Hands, from the original painting by Albrecht Durer. This portion of the meeting was held in the sanctuary.

The business session was held in the social room when Mrs. Karl Eeberg was elected secretary of Christian social relations. As there will be no meeting in July or August, the board members were given the power to act in case any important business should arise within that time. Beginning with September, the WSCS meetings will be held on the second Thursdays of each month.

Refreshments were served by Mrs. Harry Anderson and Miss Augusta Peterson.

R.N.A. Plans Picnic

The regular meeting of Laurel Camp 1796 RNA was held in the home of Violet Cooper, Thursday evening, June 28. The juvenile picnic is scheduled for Tuesday, July 17 in the Forest Preserve on 143rd St. at Highland ave. A pot-luck lunch will be served at 12:30 p.m. There will be games and races for the children, also ice cream and pop. It is hoped that the locusts will be cleared out by that time. A social period followed the business session and refreshments were served by the hostess, assisted by Ethel Lukas and Bernice Reish.

The Cloverette 4-H club met June 25 at the home of Janice

Creer. Plans were made for the local Achievement day on July 25.

Karen Anderson spent a week at Wesley Woods in Williams Bay, Wis. This is the Rock River conference summer camp. There were 81 girls and 50 boys at this particular session.

Mr. and Mrs. Harry Hallinan of Wheaton entertained at dinner, Sunday, June 24 honoring the birthday of her dad, William Murphy of Orland Park. Other guests were Mrs. William Murphy, Mr. and Mrs. Russell Hughes and family, of Orland Park.

Mr. and Mrs. Paul Voss accompanied Mr. and Mrs. Joseph Lebens June 17 when they took their son Barry, age 9, to the YMCA Camp Channing in Pullman, Mich. Mr. and Mrs. Franklin Kruspe and sons accompanied the Lebens June 24 for a visit with Barry. Barry spent 12 days at the camp and had a delightful time.

QM1-C Ralph Granat and wife are making their home with his mother, Mrs. Edith Granat. Ralph was stationed at New London, Conn., and has been transferred to Chicago, where he is in the Navigator squadron as an instructor on the Silversides submarine.

PFC Lane Schraeder, son of Mrs. Ethel Granat is enjoying a furlough. When he returns to California he expects to be transferred to Guam.

Robert, son of Mr. and Mrs. Joseph Lebens who is connected with the Seabees, is in the personnel office at Guam, where he has been stationed since February.

Arthur Beagley who has been in poor health suffered a relapse June 24 and was taken to Silver Cross hospital. His condition is serious.

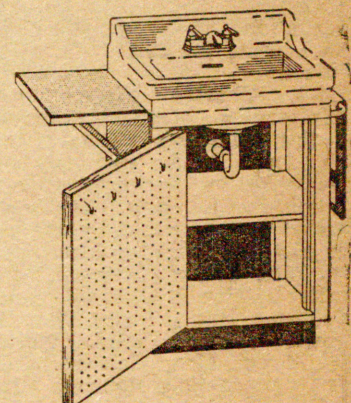

Mrs. Stewart Loebe entertained at a dinner, Friday evening, guests were Mrs. Theodore Thomas and her friend, Miss Loretta Donnelly of Battle Creek, Mich. Also Mrs. John Loebe, Mr. and Mrs. Franklin Loebe and children. Mrs. Thomas is the former Ruth Loebe, daughter of Mrs. John Loebe.

Lavatory Enclosure

AN ENCLOSURE for a lavatory not only will enhance the appearance of the bathroom but will provide additional storage space.

In the plan illustrated, the inside of the door is faced with a Masonite "Peg-Board" panel.

Various items can be stored on it by means of metal hooks and fixtures which fit into the various holes. Both the perforated panel and fixtures are available at lumber yards.

The "Peg-Board" panel serves also to keep the enclosure ventilated.

Sides and bottom of the cabinet are Masonite Tempered Presdwood, a material which withstands wear and the high humidities of bathrooms.

Oil producers spent more than 2,500,000,000 dollars last year drilling over 55,000 wells in almost two-thirds of the 48 states.

Of the record-breaking 127 billion pounds of chemicals produced in the U. S. this year, one quarter, or 35 billion lbs. will be chemicals derived from petroleum.

Women's Club Reviews History In Tinley Park

The Tinley Park Woman's club was organized at a meeting called by Mrs. Wallace B. Combs, a past president of the Third District, Illinois Federation of Women's clubs, on March 1, 1934. The organization meeting was held in the Methodist church and twenty-five women attended.

Those present voted in favor of forming a Woman's club to be affiliated with the Illinois Federation and the General Federation of Women's clubs and became the 39th club in the district.

Mrs. Charles Nielsen was unanimously elected president at the following meeting and forty-four charter members began work on the projects and philanthropies that have been carried on through the years under the leadership of Mrs. Nielsen, Mrs. Omar Ebenhack, Mrs. Walter Kester, Mrs. Frank Baldwin, Mrs. Harry Beggs, Mrs. E. Brown Campell, Mrs. Walter Fichelberg, Mrs. Herman Freitag, Mrs. Melvin Rensink, Mrs. Dallas Webster, Mrs. Voris Miller and the newly elected president, Mrs. Lewis Shawver.

Contributions have been made each year for occupational therapy, cancer research, nursing, music, art and Indian scholarships. Departments include American citizenship, American home, art, gardens, conservation, Indian affairs, legislation, litera-

Church of Christ Has Beginning In Meeting of Two Strangers

A chance meeting in 1948 of two strangers, each church-bound, on the Rock Island could be termed the beginning of the Church of Christ in Tinley Park. Mrs. George Curtis was bound for the Englewood Christian church, and Mrs. Elroy Marbach was headed for the Morgan Park Christian church. With the curtailment of the Sunday trains, the need of a Christian church in Tinley became more urgent.

A meeting was held in the home of Dorothy McKey Sept. 25, 1950, with four women present. A Ladies Bible class was started Nov. 26, 1950 under the leadership of Mrs. Edith Ross of Englewood. In December, 1950 the study class contacted Robert M. Lillie, C.D.E.A. district evangelist at Cedar Lake, Ind., and arranged a meeting at which plans were made to survey Tinley Park.

Half a store building was

rented on Oak Park Ave., where the first service was held April 15, 1951. When the opportunity arose to rent the entire store building, it was taken advantage of as the rapid growth had caused much overcrowding. In the fall of 1953, Brother Lillie was called to Gary, Ind., and Paul Keeler, who had been assistant minister, took over the pastorate in October, 1953. Desiring to go into full time ministry, Brother Keeler resigned and the church called William Scattergood, who was a student at the Lincoln Bible college, and had been ordained by the West Side church of Springfield, Ill.

When the Zion Lutheran church moved to their new location, The Church of Christ purchased the 70 year old building. On Feb. 13, 1955 they entered their new location. In September, 1955 Brother Scattergood was succeeded by Walter T. Leeper, the present pastor.

ty project during the past year was the work done to start the Tinley Park community library.

Twenty-two years of cultural and civic achievement have passed, due to the good planning and high ideals of the founders of the Tinley Park Woman's club.

A man worries about what the future has in store but a woman worries about what the stores have in the future.

Men who hang around waiting for something to turn up, should begin with their own sleeves.

Tinley Recreation Commission Had 12th Birthday Last March

The Tinley Park Recreation Commission was organized 12 years ago last March 22. It was in 1944 that it had its beginning when representatives of various organizations in the communities got together to initiate a program to provide the people of Tinley with healthful recreation and entertainment.

Its primary concern, of course, was to provide an outlet for the energy of the youth of the community.

One of the prime movers in the program was the superintendent of schools, Walter Fierke. He became the temporary chairman of the group and after its organization was chosen as president. That was at a special meeting held April 5, 1944. Other officers elected at that time were Raymond Jacobs, 1st vice president; Henry Bettenhausen, 2nd vice president; Mrs. Walter Eichelberg, secretary and William Kopp, treasurer.

At the next regular meeting it was decided to get some money in the treasury and a free will offering was taken. The recreation commission was on its way.

Organization representatives present when the recreation commission was launched included, Walter Mager for the Veterans of Foreign Wars; Mrs. Jacobs for the American Legion Auxiliary; Mrs. R. L. Bacon for the W.B.A.; Douglas Aden for the Youth group; Mrs. Henry Clark for the PTA; William Kopp for the Catholic Men's club; Noble Terrell for the Methodists Men's club; Mrs. Kopp for the Home Bureau; Henry Wolfe for the Civic club; Raymond Jacobs for the village board; Henry Bettenhausen for the Tinley Park Business Men's association; Mrs. Eichelberg for the Woman's club; George Denner for the Social club and Supt. Fierke for the schools.

In May of that year the board found an opportunity to buy a

tract of land in the village, north of the creek, and Henry Bettenhausen began negotiations with the owner, Edward Schmitt. An agreement was reached under which the commission purchased the land for \$4,500. This became what is now Memorial park.

The down payment was 500 and a series of bunco parties, dances and amateur shows in the next 10 months was more than sufficient for this purpose.

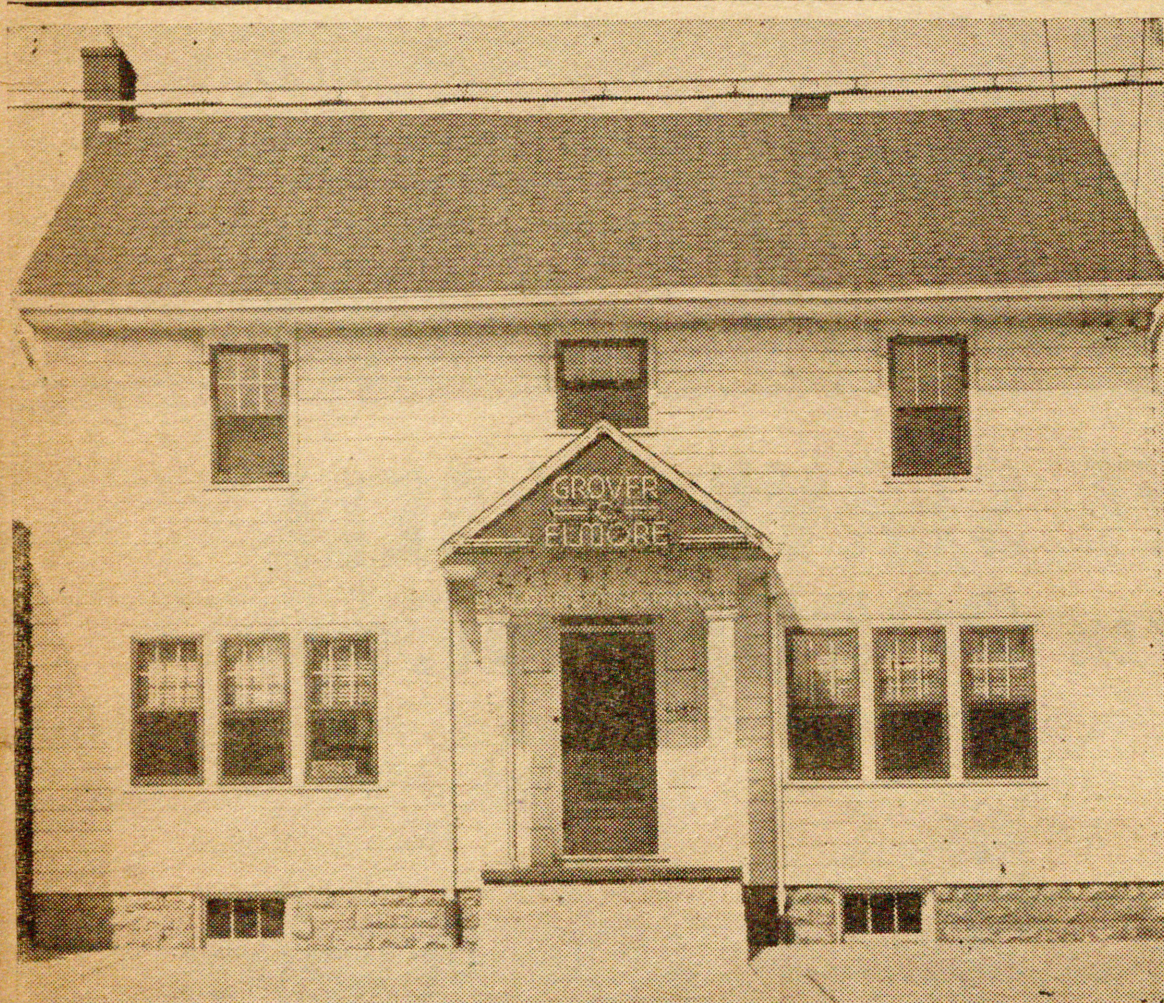

1945 was the centennial year for Tinley and in October of that year the commission staged a carnival with William Kopp in charge. A net profit of \$2,800 was made but the amount was far short of the sum required to complete the purchase of the land. A campaign for funds was instituted and netted \$2,290 which was more than sufficient to complete the purchase price.

In April of 1946 two additional lots were purchased from Walter Bruning for \$800 and paid for in full by October, 1947.

Beginning in 1948, when Mrs. Brown Campbell was president of the commission, the fall festival idea was inaugurated as a means of providing the organization with funds to carry on its work.

The recreation commission has spent considerable money on improvements to the park. A baseball diamond was built, among other things; Playground equipment installed from time to time and the commission also has aided ball teams in getting started, arranged parties at Hall-Loewen and Christmas and aided many other community projects.

Past presidents of the commission, beginning with Supt. Fierke, are, Walter Goebel, Mrs. Campbell, Henry Boldt, Selby Hirsch, Raymond Jacobs, Henry Nolte, William Whetter, Jr., Richard Nebel, George Klauss and the present head of the group, Mike Haber.

COFFEE: A Conversation Piece

Of all the groceries in daily American use, few have as legendary and romantic a background as coffee. Some of its colorful facts and traditions make conversation pieces almost as stimulating as the beverage itself.

One Arabian legend relates that coffee came into use when it "got the goats" of a herdsman named Kaldi. He reported to the abbot of a monastery that his flock went into a frolicsome dance after eating berries off a certain tree. When the cleric boiled the berries in water, he derived an exhilarating brew which helped his monks to stay awake during midnight prayers.

This monastic coffee ritual was the predecessor of the daily coffee break enjoyed by millions of American workers and housewives.

In a survey among plant managers, 82% credited coffee breaks with a reduction in worker fatigue and 62% said they increased productivity. Coffee has also been a factor in adventure and espionage. The famed Polish spy, Franz Kol-schitzky, who saved Vienna from besieging Turks, opened the first Viennese coffee house. As reward for his heroic exploits, including swimming the Danube several times to circumvent enemy lines, he was given sacks of green coffee abandoned by the fleeing Turks.

Today, you can find coffee houses in nearly every metropolis of Europe, many with their own history of famous patrons and epochal events. In England, Samuel Johnson established the Turk's Head coffee house which became a gathering place for artists and writers of his era. It is rumored that in the archives of the old Cafe Central in Herengasse there is an unpaid bill for

a cup of black coffee—charged to Trotsky.

In the U.S., Boston's Green Dragon coffee house was called "headquarters of the Revolution" by Daniel Webster, and the Merchants' House in New York was the scene of Washington's pre-inaugural reception. A forerunner of the Revolution itself—the Boston Tea Party,—when colonists dressed as Indians dumped British tea into the harbor to protest taxes, accelerated coffee's popularity in this country. Today, Americans drink more than 300 million cups of coffee a day.

In addition to its role in adventure, history and literature, coffee—or the lack of it—has been the point of issue in the courtroom. In Turkey, at one time, a husband's failure to provide coffee for his wife was legitimate grounds for divorce. In affairs of the heart, Madame du Barry was among ladies who were wooed with gifts of coffee, and Bach's Coffee Cantata sings of a girl who insists on a marriage contract stating that she may have coffee whenever she wishes. Nowadays, discriminating hostesses recognize its indispensability at socials.

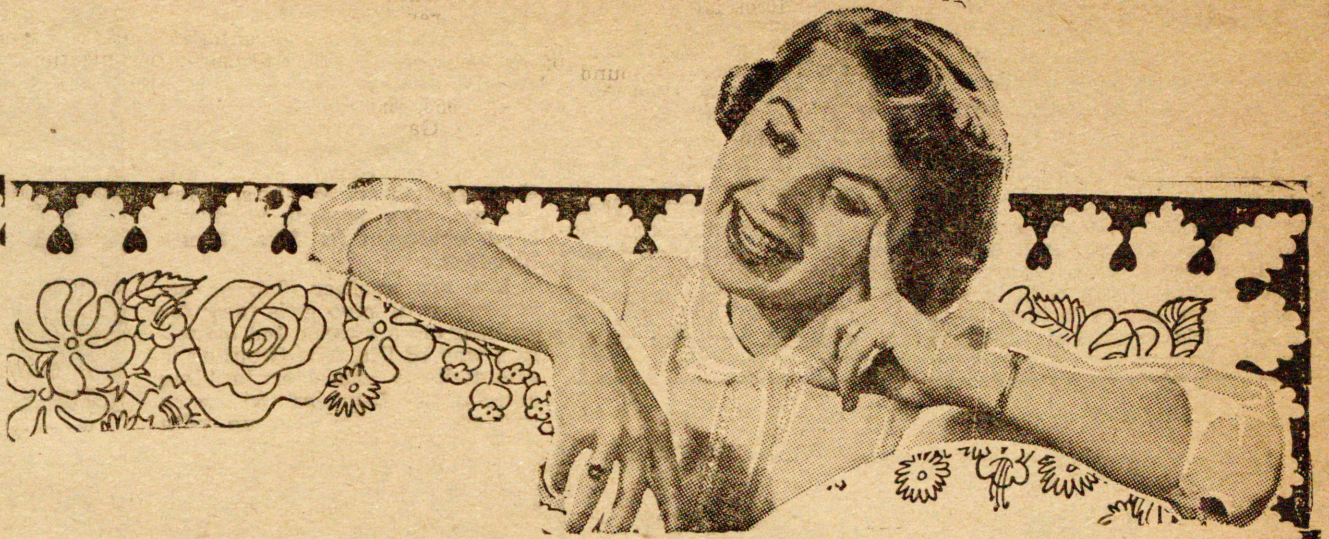

To Napoleon, coffee was something that "gives me warmth, an

unusual force." To General Sherman, in his remarks on troop rations, it was "something to be carried along, even at the expense of bread." To the English clergyman and humorist Sydney Smith, it was "the intellectual beverage."

Name your favorite phase of history and research will show where coffee has played a part. And, considering its popularity in America today—our largest imported commodity—the beverage will undoubtedly continue to be part of the backdrop for memorable world events.

Girl Scout Movement in Tinley Had Its Beginning 17 Years Ago

As an organization the Girl Scouts of Tinley Park are seven years old. In the summer of 1949, mothers of young girls contacted the area office of the Girl Scouts of South Cook county in Harvey, and a representative was sent to an organizational meeting. The first two troops formed that year were a Brownie troop with Mrs. Michael Borge and Mrs. Karl Heidelberg as leaders and an Intermediate troop with Mrs. Earle Palmer as its leader. About 30 girls registered in the program at that time and adults provided assistance.

Today there are 14 troops in Tinley Park offering Girl Scouting to 228 girls under the direction of 81 registered adults both men and women.

This growth in the past seven years, is a natural development in a growing community. Membership in the International association of Girl Scouts and Girl Guides is a coveted goal of almost all young girls regardless of race, color or creed. The program is varied, covering 14 dif-

ferent fields, both in indoor and outdoor settings. Camping is one of the final tests of a girl's knowledge and skill in all of these fields. At this time of year, many of the young girls in Tinley Park are participating either in day camp, troop camping or spending a two week vacation at the established Camp Manistee in Montague, Mich.

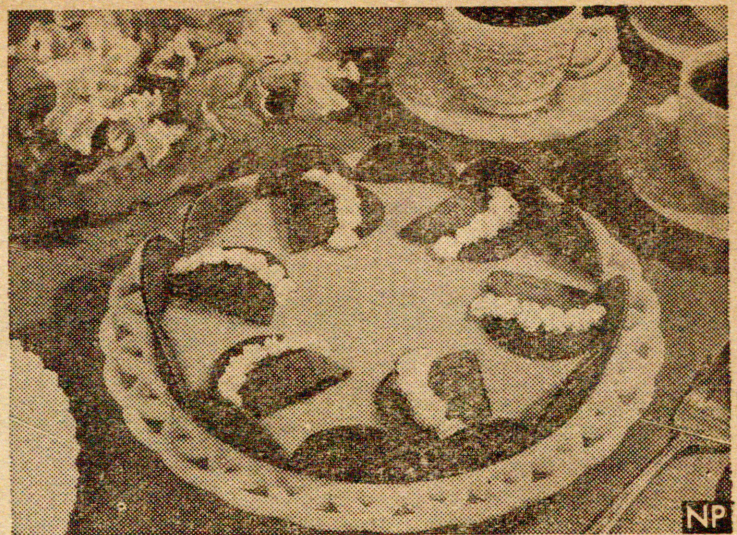

To administer and carry out the complete Girl Scout program in each community, a neighborhood chairman is elected. Past neighborhood chairmen in Tinley Park have been Mrs. Earle Palmer, Mrs. Robert Funk, Mrs. Karl Heidelberg, and Mrs. Percy Jochum. The present neighborhood chairman is Mrs. Elmer Knudsen.

Not just another club or organization to keep girls busy for an hour or so a week, but actually a way of life, Girl Scouting is essentially a character building association. Learning to work and cooperate in a group with other girls of varying ages is the very basis of democracy. Great stress is put on service. All Girl Scouts make a solemn promise to serve in their home and in their community, their God and their country. Skills are learned not only for the enjoyment and training of the individual girl, but with the thought of using such skills in helping other people.

This varied program of such large scope is carried out under the leadership of all volunteer adult help. Training courses are provided, with a minimum of 22 hours, to prepare leaders for their work. Additional courses in specialized fields are also available and some of the adult Scouts of Tinley Park have almost 50 hours of training. There is a constant need for more adults, able to give much or a little time, to provide good program for the many girls still on waiting lists. With more help, we in Tinley Park will be able to maintain the high standard and fine ideals which have been developed over the years by the International association of Girl Scouts and Girl Guides.

Leaders who have just completed this year's program with the Girl Scout troops in Tinley Park are:

Easy-To-Make Apple Sauce Bavarian Pie

YOU MAY WANT TO SERVE THIS PARTY-TYPE PIE at an afternoon tea party. Or as the dessert for a St. Valentine's luncheon. Or for a Washington's Birthday occasion. For this is a pie to garner compliments for its good looks and deliciousness. And you need never tell that it's so easy to make.

It's easy because three modern ready-to-use foods are combined to achieve spectacular results... chocolate wafers, sweetened condensed milk and ready-prepared apple sauce... all found regularly in any grocery store.

The wafers form the scalloped shell. The filling is a soft gelatin-fluff of canned apple sauce, light and smooth, the refreshing flavor of apple perked with lemon and orange.

To make it, simply follow these directions:

APPLE SAUCE BAVARIAN PIE

- | | |
|---|--|
| 1 envelope unflavored gelatine | 1/4 cup orange juice |
| 1/4 cup cold water | 1 tablespoon grated orange rind |
| 2 cups canned apple sauce | 2 egg yolks |
| 1 (15 oz.) can sweetened condensed milk | 1 package chocolate wafers (2 1/4" diameter) |
| 1/2 cup lemon juice | 1/2 cup heavy cream |

Soften gelatine in water. Heat apple sauce; add gelatine. Stir until dissolved. Cool. Combine condensed milk, lemon juice, orange juice, orange rind and egg yolks; stir until mixture thickens. Add apple sauce; mix well. Line bottom and sides of 9" pie plate with chocolate wafers, standing wafers around edge. Cover with 1/2 apple sauce mixture. Add layer of cookies, cover with remaining apple sauce mixture. Place an overlapping circle of cookies on top. Chill. Just before serving, whip cream stiff, use as garnish. Yields 8 servings.

Brownie troops 66, Mrs. R. Pearson; 315, Mrs. J. Cheney, Rich, Mrs. M. Schooley; 190, Mrs. G. MasMonagle, Mrs. M. Schneider; 238, Mrs. W. Zawadzki, Mrs. N. Owens; 239, Mrs. E. Anderson, Mrs. M. Steinmetz; 267, Mrs. M. Benson, Mrs. A.

Intermediate troops 97, Mrs. J. Jacobs, Mrs. J. Logsdon; 334, Mrs. H. Zobac, Mrs. E. Yepson and 335, Mrs. P. Bruckbauer, Mrs. R. Vandenburg.

Senior troops 225, Mrs. R. Funk, Mr. R. Funk and 268, Mrs. R. Dini, Mrs. W. Blaylock.

Royal Neighbors Grow From 20 To 500 Members

The Royal Neighbors of America was organized in Tinley Park in March, 1900 with 20 charter members, all of whom have passed away. The present membership numbers 500, with a Juvenile Camp connected with the Adult Camp.

The unit is called Dew Drop Camp No. 2023. It is a beneficial as well as social organization, and is active in many community affairs and always contributes to Red Cross, Salvation Army and the Royal Neighbor Home for the Aged in Davenport, Ia., as well as many other organizations of this nature.

The first oracle to be elected was Mrs. Emma Andres, and there have been many fine leaders of the camp which is the reason for its continual growth. The newly installed oracle is Mrs. Lottie Rasmussen.

Some fifty elementary and secondary school teachers are attending the three-week conservation school which opened Monday, June 25, at the state fairgrounds, Springfield. Sponsored by the departments of Agriculture and Conservation, and the Office of Superintendent of Public Instruction, the course carries undergraduate credit at the six state colleges and universities.

A graduate conservation school, to be conducted at the same place and under same management, will open Monday, July 16.

TINLEY PARK, ILL. CHICAGO HEIGHTS, ILL.

When You Catch Fish This Size The Affidavits Come With Them

While most fishermen brag about the big one that got away Mrs. James English of Tinley Park may well brag about the big one she caught.

On the walls of the English Bros. garage showroom hangs a beautifully mounted sailfish 5½ feet long, which weighed 53 lbs.

A citation from Ye Ole Fishin' Hole, Marathon, Fla. reads: "To Agnes English for having caught on rod and reel unaided a sail-

fish weighing 53 lbs. on medium tackle, 27 lb. test line at Marathon with Capt. Collins on boat Goldie. A feat of fine angling which is worthy of commendation by any true sportsman." It is dated Jan. 22, 1956.

What? No bait!

It was the first experience in this type of fishing for Mr. and Mrs. English (right) and Mr. and Mrs. George Hartman (left) also of Tinley, who accompan-

ied them on the trip to Florida. The trawlers carry the passengers 15 miles out from shore and anchor in a group for deep sea fishing. The first day out, the local fishermen, much to the envy of surrounding fishermen, caught 8 sailfish weighing a total of 400 lbs., including a dolphin reeled in by George Hartman. They ran out of bait and passengers on other boats who are in communication with each other, generously offered some of their Bally-Hoo bait. Mr. and Mrs. English and Mrs. Hartman each had a sailfish on their line at the same time, but two of the fish escaped.

The two couples recently returned from a fishing trip to Minaki on the Winnipeg River in Canada. On this trip, a 20 lb. Northern pike got away from Mrs. Hartman, but a 30 lb. muskie was not so successful. The foursome caught 18 Northern pike in the Canadian fishing expedition.

No Rest for Police -Even on Vacation

Police work never stops for Tinley Park police chief Harold C. Moore. While in Muskegon, Mich., recently to attend a nephew's wedding and enjoy a few days of relaxation, it was his painful duty to call an ambulance and follow it to the hospital with siren shrieking. His brother Clifford was involved in a head-on collision in a blinding rain and thunderstorm. The accident was indirectly caused by tornado warnings posted in the area.

While festivities of the wedding were going on, local police

advised the group to break up and go home as three ominous funnel shaped clouds were reported north of Manistee, 12 miles from Muskegon.

The chief's brother was returning to the reception hall to retrieve a coat when he collided head-on with another vehicle when making a turn. The force of the impact knocked his car 50 feet and turned it completely around, the two men in the other car were tossed out of the vehicle.

Moore's brother sustained chest injuries, a broken foot, and a fractured leg.

Washington Notes

Federal Housing Scandals

Since 1933 the Federal government has used \$69 billion in public credit to subsidize domestic housing. Of this, \$34 billion -- about half -- is still outstanding in direct, guaranteed, and insured loans.

In 1954 a senate probe uncovered the fact that crooked contractors had reaped windfalls amounting to millions of dollars by overcharging homeowners and by obtaining FHA insured mortgages far in excess of construction costs.

Now comes Senator Byrd in a letter to President Eisenhower stating that the general accounting office, in four recent reports, definitely shows that "the elements which bred housing scandals still exist." These four reports cite instances that "flagrant irregularities, slovenly bookkeeping, inexcusable procrastination, illegal practices, favoritism, and negligence" still

are found in the Federal Housing Authority.

Present-Day Government Extravagance

The House of Representatives recently voted an appropriation of \$12 million to start work remodeling the national capitol building. The total cost of the remodeling will be \$42 million. It will change the entire front of the Capitol, the view that has become so familiar and has been so greatly admired by millions of people the world over.

On the same day the House voted \$10 million to start work on a new House Office Building, and \$18 million for remodeling and improving the two existing House Office Buildings -- a total of \$40 million voted in one day to start projects that will eventually cost \$135 million.

The writer was one of six members who voted NO on these appropriations, because he does not believe the remodeling of the Capitol and the other building projects are either desirable or necessary.

EDITORIAL

Our Aim Is Constant

While the Tinley Park Times appears in a new form today, its aim is the same that has been for the past 38 years—to keep the public informed, to advocate those things that are for the best interests of the community as a whole and to oppose that which is not.

Tinley Park has prospects of a bright future. There is no doubt but that it will grow in population with corresponding growth in business and industry.

The character of such growth, as was pointed out recently by Prof. Harold Mayer before the Tinley Park Chamber of Commerce, will be shaped by the people that make up the community.

We shall endeavor to aid in this work.

We believe Tinley Park will have an important role in the development of southwest Cook county and the Chicago metropolitan area. We expect to play our part in this and to grow and progress with the community.

To this end we need your co-operation and support. The business of publishing a newspaper is not a one-way street. A newspaper owes a duty to the public but the public owes a duty also to a newspaper.

A newspaper's revenue comes from but two sources, advertising and circulation. The money spent on advertising by those with goods and services to sell brings them returns many fold. The subscriber also benefits. Not only does he keep himself informed as to the happenings in the community but he also is informed thru the advertisements as to where he can best fill the needs for himself and his family.

We hope you like the new Tinley Park Times. We plan to keep on improving it and bring you more news, more pictures and more features.

Scout Trail

Boy Scout activities are a big part of Tinley Park, and many young men in the village today will tell that they received their beginning of adult life thru the Boy Scout training.

The first Boy Scout troop, No. 55, was organized in 1940 with Harold Zobac as scoutmaster. Those serving on that first troop committee were Wesley Stemm chairman, with M. W. Bernardini, Herman Klann, L. V. Bacon, Walter Eichelberg, Mark Talmadge, Fred Jenner, and Alvin Reder. R. A. Bovik and Alex Rydberg were assistant scout masters. The sponsoring organization was the Civic club.

A number of years later it was deemed best to consolidate all Boy Scout councils into and troop 55 then became troop 255. At that time the Civic club ceased to be its sponsor and the VFW Bremen Post 2791 took

over that responsibility. This troop now has a membership of 65 boys with Jack Redman as Neighborhood commissioner and Tom Mahoney as district commissioner.

Scoutmasters who followed Mr. Zobac were, Earl Schaeffer, George Chandler, Tom Mahoney, Gilbert Cloud and Bert Gestner with John Gadrim serving in that capacity at present. He is ably assisted by Kenneth Carlson, Richard Williamson and Robert Meyer.

The first primitive camp of the Girl Scouts of South Cook county is being held near the council's established Camp Manistee in Mantague, Mich., from June 28 to July 11.

Directing the camp activities is Mrs. Philip Tarr of Homewood. Miss Claire Brier, field director is in charge of swimming and canoeing.

The local girls attending received their primitive camp training during the past year as members of the alternate senior roundup patrol. They are Cynthia Cook and Barbara Sefzik of Evergreen Park, Carol Reckner of Harvey, Jayne Meyer of Homewood, Sharon Bean, Pat Douglas and Mary Jeske of Park Forest and Rosemary Williamson of Matteson.

Troop 225 Fetes Girl Scouts Who Became Seniors

A graduation party was given June 26 by Girl Scout troop 225, their leader, Mrs. Helen Funk and co-leader, Robert Funk.

A brief ceremony, honoring the graduation of the girls from intermediate to senior scouts, was held in which Sandra Wheeler gave the meaning of Girl scouting as she lighted a large candle. Each girl in turn then lit a smaller candle from the large one and repeated one of the Girl Scout laws. A candle was lit for Juliette Lowe, founder of Girl Scouts organization in America, and one for the World Association of Girl Scouts and Girl Guides. "The Golden Sun," sung by the girls concluded the ceremony. Senior pins will be presented to the girls at a later date.

Guests at the party were Mrs. Ava Funk, outdoor consultant for the South Cook county

council, and eighth grade and first year high boys.

There was dancing and refreshments were served.

OUT ON A LIMB

By Stumpy McCulloch

It was no secret to my neighbor Gulliver that his second-hand tractor was a heavy gas-eater. But the other day he pulled into a fillin' station and left the motor running while the feller filled the tank, and after about ten minutes the feller said, "Would you mind shuttin' the motor off, buddy? You're gettin' ahead of me!"

Ol' Sam was askin' me questions about loggin' his wood lot the other day. If you own a wood lot or a small forest, and have never logged it, maybe you'd like to know the answers, too. I tol' Sam I know of four ways for loggin' a wood lot.

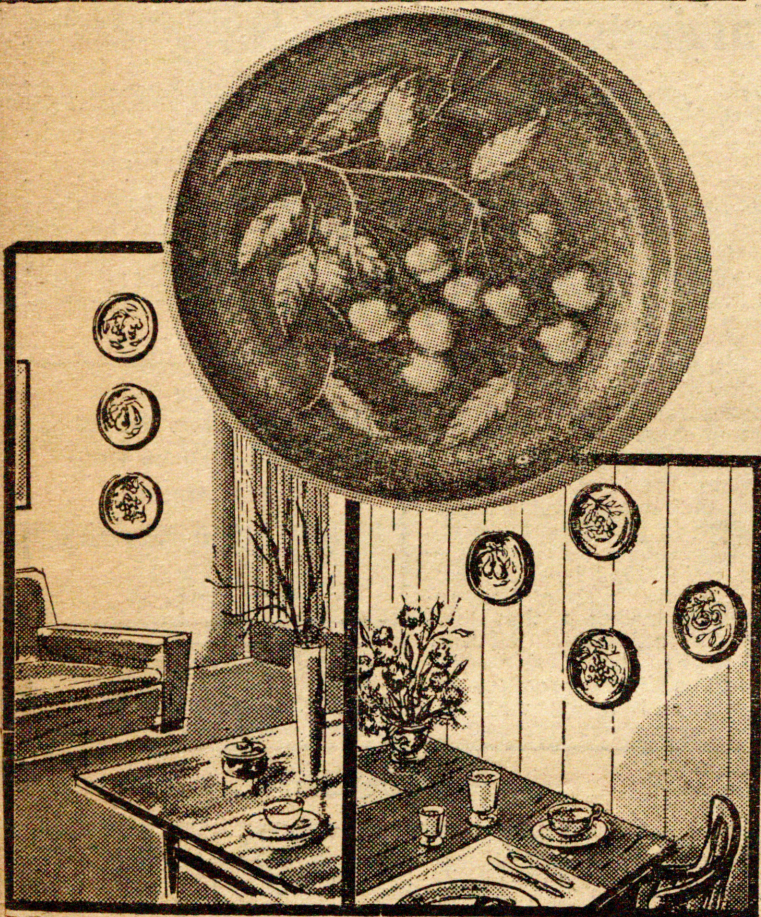

One is clear cuttin', where you cut down every tree in sight. That's bad—unless you're planning to use the land for another kind of crop. Two is seed-tree cuttin' where you leave only 10 or 12 trees standing for reseeding purposes. That's bad, too—'cause a lot of time is wasted for reseeding' that ought to be devoted to growin'.

Then there's cutting of all trees over a certain diameter. This isn't always best, because you may leave smaller trees that should come out, being deformed or unhealthy. Selective cutting is the best kind. By this method, you cut those trees that have fully matured, leaving others for seeding and others not yet fully grown. You may need the help of a forester, at least the first time. But you'll be sure every tree has the best chance to grow right, and you'll be cutting every tree at its highest value.

Fellers who have only a few trees usually use a crosscut saw and an axe. Fellers with more trees generally use a power saw. In cutting a tree, I always start out with a notching cut, on the side facin' the direction I want the tree to fall. 'Course, I can only influence the direction to a certain extent. If a tree is leanin' north, it generally won't fall south. Not unless you use a wedge or rope, the way a tree surgeon does.

I know a newlywed housewife who was havin' trouble cooking ox-tail soup, 'cause every time she got the water hot, the ox would take his tail out!

So long, folks. See you soon!

Jacobs-Copalello Deal in All Types of Electrical Appliances

by Anne Rodger

His army training as technical sergeant in the artillery division of the U. S. Army equipped John Copalello, partner in the firm of Jacobs-Copalello, 17040 Oak Park ave., for the business he now operates in civilian life.

As a lone American soldier on a radar phoning post in Panama where he trained seven Puerto Ricans in the maintenance and operation of radar equipment, he dreamed and planned for the future.

He and Albert Jacobs have

been in partnership for nine years. Besides the Tinley Park store, they own stores in Steger and Chicago Heights. The latter store is managed by Jacobs and the local store by Copalello.

The first Tinley store was opened in 1950 behind the post office. They outgrew these quarters and the present store carries a very complete line of radios, television sets, electric ranges, washers, dryers, refrigerators, and traffic appliances such as clocks, toasters, coffeemakers etc.

A complete line of paint and

wallpaper is carried. Also, large wading pools not less than 6'

John Copalello

can be purchased at the local store.

A large and varied stock of phonograph and Hi-Fi machines are available.

Four trucks are used in the servicing of television sets and other appliances.

Copalello graduated from Bloom Township High school and Coyne Electrical school.

As a graduate of a refrigeration maintenance school, he is well qualified to repair and service all makes of refrigerators.

Color Television

He advises that 40 different models of color television sets will be available this fall at moderate prices. For instance, he quotes a price of \$495 for an R.C.A. 21" screen in color. With trade-in allowance on present sets, this figure will be reduced making color television available to almost anyone who desires it.

Jacobs and Copalello feel very fortunate in having been chosen distributors of aluminum awnings by a well known concern. The 3-year distributorship allows them to handle this commodity on a wholesale and retail basis within a large territory.

In a national contest by Federal Air conditioners, the partners won a trip to Nassau which they will make this fall. The large amount of these units they have sold entitles both to make the trip.

The store owner is past president of the Tinley Park Chamber of Commerce and a member of the Retail Council. He is also a member of the Chicago Heights posts of American Legion and Veterans of Foreign Wars.

The 36 year old Copalello was born in Chicago Heights. His wife Gertrude was born in Steger where they now live with their children Diane, 6½ and Richard, 3½ years old.

For relaxation, he spends as much time as he can on local links trying to break par.

Washington Notes

National Debt and Interest

During the past 25 years—New Deal years—the interest on the national debt has cost the American taxpayers \$81 billion.

Thomas Jefferson in a letter to his friend, Elbridge Gerry, once wrote:

"I sincerely believe with you that the principle of spending money to be paid by posterity, under the name of funding, is but swindling the future on a large scale."

This is a philosophy our present day New Deal statesmen do not have. Unbalanced budgets are the order of the day, and a rapidly growing national debt is nothing for them to worry about.

The rank and file of American taxpayers is almost in complete ignorance of the financial condition of their government, a government that in 25 years has added the public debt from \$16½ billion in 1931 to \$278 billion in 1955. Over one-half of our present national debt and more than one-half of our \$7.1 billion yearly interest payments are due to our foreign aid giveaway programs. Isn't it about time to call a halt?

Samples of Foreign Aid

The comptroller general of the United States in a report to the Congress on our Foreign Aid spending gives various specific

instances of waste, foolish spending and squandering of our tax money. Among the list are the following:

1. Built a road in Iran to lead to a dam site at heavy cost, requiring several tunnels thru the mountains. The dam has not been built, and there is no present prospect of its being built unless the United States puts up the money to build it. In the meantime there is no use or need for the road.

2. Built a cement plant in Iran of 600 tons per day capacity. After completing the plant it was discovered they lacked the necessary raw material (lime stone) out of which cement is made.

3. Built a cotton mill in Iran with a spindle capacity of 10,000 spindles with floor space for 50,000 spindles additional. After the mill was completed they found they lacked the necessary electric power to operate the mill.

4. Sunk 2000 artesian wells in India to irrigate arid acres—not to grow food for the starving people of India—but to grow more cotton to compete with American cotton on the world markets.

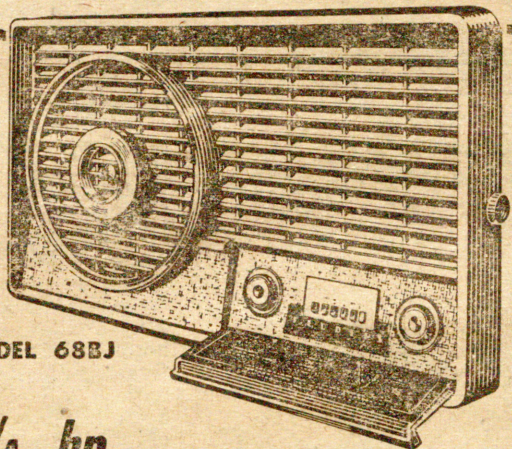

An argosy is a large merchant ship.

George Washington is buried at Mount Vernon.

Songs of Satisfaction

Jacobs & Copalello HAS the Air Conditioner that slashes electric costs by up to 40%

MODEL 68BJ

big ¾ hp

FEDDERS

lets you air condition more rooms at less cost

Don't let high operating costs for air conditioning jail you in one air-conditioned room when it's too warm to get outside cooling range of an air conditioner. We have a big ¾ Fedders — 1956 model, of course — that cuts 40¢ out of each air conditioning electricity dollar. Now your monthly household budget can stand the cost of another air conditioner that makes more rooms habitable even when the mercury soars way, way up.

LOW-COST AIR CONDITIONING FOR BEDROOMS, TOO
Fedders ½ model air conditioners use less electricity more efficiently. You'll find it the ideal unit for every bedroom in your home.

John and Janet Burleson visited at the home of their grandparents Mr. and Mrs. John Schmidt in Three Oaks, Mich. several days this week.

The South Cook County Girl Scout Council's summer camp, Camp Manistee, in Michigan opened June 28. Girls attending this first two week session from Tinley Park are Marilyn Sprela, Barbara Yepsen and Lila Zobac.

Mrs. Charles Nielsen spent the past two weeks visiting relatives in and around Marco, Ia.

Mr. and Mrs. Richard Nitsche and family of Orland were Sunday evening supper guests at the Fred Nitsche home.

Mr. and Mrs. Marvin Vogt and family visited with the latter's parents, Mr. and Mrs. John Nelson in Little Rock, Ark. While there, they attended the wedding of Miss Charlotte Nelson on June 11 to Marshal Trieber. The Vogt's daughter, Cynthia, age seven, was a member of the bridal party in the capacity of flower girl. The new Mr. and Mrs. Trieber are enjoying a three week stay in Hawaii. Char-

lotte lived with her sister, Mrs. Vogt, here in Tinley for quite some time and will be remembered by Tinley residents. The Vogts spent several days in Hot Springs. They also had the pleasure of seeing Elizabeth Templeton, a friend of Mrs. Vogt, who is a Medical Missionary in the Belgian Congo. She is on leave in the States but will be returning shortly.

Mr. and Mrs. Harold Gilson of Harvey were guests at the Dallas Webster home Saturday evening.

A triple birthday celebration took place at the Warren Ecklund home on Sunday as the twins, Donald and Donna, age 6 and Diane age 13 invited the grandpas and grandmas, aunts, uncles and cousins to an outdoor picnic supper.

Mr. and Mrs. Henry C. Bormet were guests of honor June 27 at a surprise party given by their daughter Carol to celebrate their 20th wedding anniversary. Twenty friends and relatives enjoyed games and visiting, after which refreshments were served. Many lovely gifts and cards were received by the honored couple.

Word has been received from Dr. J. L. Gonzalez who is on overseas assignment at the Rodriguez Army hospital in Puerto Rico, stating the family is enjoying their stay on the Island but are looking forward to their return to Tinley Park. He will receive his discharge from service in April of 1957, when he will resume his private practice here again. Dr. Gonzalez has recently received a promotion to the rank of major.

Mrs. Elroy Marbach and daughter Susan spent two weeks with her parents at Camp Point, Ill. Mr. Marbach joined them on week ends. They also visited the Helmar family in Union, Mich. for several days.

Cub Scout pack 272 enjoyed their annual picnic Sunday with 25 families gathering at Carlson's Springs woods for a potluck dinner with ice cream and pop furnished by the pack. Cub Master John Shaulis and the pack committee and den mothers kept the boys busy with games, and a pie eating contest. Prizes were awarded.

Mrs. Jean Milmine and her daughter, Mr. and Mrs. John Easton and son John of Chicago were guests Sunday of the former's daughter, Mr. and Mrs. Al Rodger, 6636 Riverside drive.

The Bremen Home bureau met June 28 in the home of Mrs. Nicholas Schullen, with Mrs. Ray Seidel and Mrs. George Shantz assisting. The date of July 26 was set as the final date for new members resulting from the membership drive. Mrs. Claradehl Upham, home adviser discussed lessons for June which was new and easier ways to save. Mrs. Joe Edwards, Mrs. John Terrell and Mrs. Harold Warning were guests. The next meeting will be July 26 in the home of Mrs. George Smith, with Mrs. Frank Masterson and Mrs. Joe Sterowitz assisting.

Joe Milmine of Gatlinburg, Tenn. was a guest of his sister, Mr. and Mrs. Al Rodger one day last week.

The Rev. Glenn Ames officiated at the baptism of the following children during the worship service of the Tinley Methodist church Sunday morning: They were Lyle John, son of Mr. and Mrs. Earl Yunker; Joy Marie, daughter of Mr. and Mrs. Milford Bettenhausen; Joel Jesse, son of Mr. and Mrs. Jesse Nugent; Robert Lewis, son of Mr. and Mrs. Woodrow Blaylock and Margie Lynn, daughter of Mr. and Mrs. Ervin Brandau.

Mr. and Mrs. Gordon Bey announce a new member to their family, a baby boy, Charles Edward who has come to live with them.

Several lovely showers were given for Miss Jean Reder, the first of which was in Tinley Park with Mrs. H. B. Nolte as hostess when 22 guests, friends of the bride, gathered at the Nolte home. Dainty refreshments were served. Another pretty party was given for Jean by Mrs. William Wiltgen in her home in Oak Forest for relatives of the bridal couple. Both were miscellaneous showers. Jean became the bride of Robert Wiltgen June 30 at services in the Methodist church.

Washington News Letter

A New Look at Foreign Aid

Marguerite Church, member of congress from Evanston, Ill. and a member of the house foreign affairs committee wants to take a new look at our foreign aid program to determine how much "good will" has been created abroad by the \$55 billion we have spent in the last 10 years. Mrs. Church also wants to carry out the recommendations of the Hoover Commission in the field of foreign aid.

Our foreign aid program is badly in need of an overhauling and a drastic reduction in the amount of aid given. We have gained few friends and few tangible results from our outpouring of dollars.

The writer is in full accord with Mrs. Church in her attempt to bring some degree of sanity into our foreign aid program to replace the New Deal insanity that has dominated the program for the past 10 years. It is time we gave American taxpayers a break.

Samples of Federal Extravagance Abroad

In a recent senate address Sen. Mansfield of Montana gave out the following information:

(a) An increase of \$1,700,000 in the appropriation for 1957 over 1956 for the "Office of the Deputy Assistant Secretary for Operations" in the state department. Part of this money was for wastebaskets at \$27 apiece, rugs at \$155, swivel chairs at \$87, desks at \$206, and davenport at \$265.

(b) A budget request for \$135 million for the United States overseas information office, part of which was for "home leave transfer and related travel of personnel in the European area". A table submitted to the senate committee covering "100 home leave round trips" showed a cost of \$271,900 or an average cost of \$2719 per round trip.

(c) The state department ask-

ed an increase of \$1,900,000 over the 1956 budget to establish 299 new foreign service positions, with an allowance of \$3750 for home furnishing for each position.

(d) In Madrid last year 21 new "control officers" were established "to make 393 congressional visitors and 228 government officials feel important."

Our nation today is up to its neck in debt and our people are loaded down with taxes; yet we propose to spend \$4.9 billion next year to help our poor relations abroad.

Veterans' Pensions

The committee on veterans' affairs has reported a bill to provide for increases in the pensions and compensation paid to veterans and their dependents. It is a comprehensive measure, dealing with all wars in which United States has been engaged and including peacetime service.

The measure provides for increases in all pensions paid to veterans and their dependents. The most controversial provision is that dealing with non-service connected disability cases. Under present law a veteran who is permanently and totally disabled can obtain a pension of \$85 a month, regardless of how he obtained his disability. The pending bill would increase this to \$105 a month and would also establish the presumption that at the age of 65 every veteran is totally disabled.

That part of the measure which increases the compensation paid to veterans, their widows and dependents on a basis of disabilities actually incurred in the service or possibly aggravated by military service has general approval. Most members of congress feel that everything possible should be done for the veteran who became disabled while serving his country. There is some question, however, as to whether a veteran should be guaranteed a pension simply because he wore a uniform.

The committee has estimated that the proposed increases will cost something like \$1 billion 300 million in the first year and

\$1 billion 800 million in the fifth year. It is impossible to predict at this time just what action will be taken.

Radio and TV Will Be Silent In Alert Test

The Federal Communications Commission has directed shutdown of radio and television broadcasting for the entire United States, on Friday, July 20, 1956 from 2:10 pm. to 2:25 pm. (CST) during the CD Test Exercise "Operation Alert," according to a bulletin by General Robert M. Woodward, State Civil Defense Director, today.

"This is an unprecedented move by the authorities, giving further emphasis to the nationwide recognition of the importance of the Civil Defense effort," General Woodward said.

During the radio-TV silence period, only CONELRAD stations will remain on the air on the established frequencies of 640 and 1240 kilocycles. CONELRAD stations are those who have been approved to participate in emergency broadcasting on an "on off" basis to prevent enemy aircraft from using radio frequencies as a guide.

General Woodward gave this explanation of the CONELRAD system:

"CONELRAD stands for 'plan for control of electromagnetic radiation' and is a system devised by the broadcasting industry and the government to bring official information to the public in times of emergency."

"With normal broadcasting, enemy bombers could turn their direction finders to a station in a target city and 'beam' right into their targets. However, without broadcast facilities there would be no quick way to get emergency news and instruction to the people."

"CONELRAD, all stations first sign off the air with a

standard Alert announcement. The stations of the CONELRAD system then reduce power and change their broadcasting frequency to 640 or 1240 kilocycles; then they return to the air. TV and FM stations will remain off the air for the duration of the Alert.

Civil Defense instructions on attack warnings, shelter, evacuation and radioactive fallout will be announced by CONELRAD stations during an emergency.

TINLEY PARK TIMES
Thu. July 5, 1956 Sec. 1 Page 7

—CONELRAD broadcasting will either be the continuous method (by switching from one transmitter to another in a cluster of stations) or the "on off" method (a single CONELRAD station broadcasts for a short period and goes off the air for a few minutes). In Illinois, 31 radio stations are involved in the CONELRAD network.

TINLEY PARK CHAMBER OF COMMERCE

VISION TO SEE — FAITH TO BELIEVE — COURAGE TO DO

A giant tank truck can be loaded with gasoline at the rate of 400 gallons a minute—that's a load of 5,000 gallons in less than 15 minutes.

It costs about \$2,000 dollars to lay a mile of 12-inch pipe line.

Pipe lines sometimes carry the natural gas of as many as 100 different producers.

Tinley Council Pays Tribute to Former Member

An obituary to William Wannemacher, who died June 30, was placed in the minutes of the Tinley Park village board meeting last Monday, at the request of president Jeffords.

The flag on the Municipal building was placed at half mast in respect to Mr. Wannemacher who served on the board from 1939 to 1952. During this period, the deceased was a member of finance, streets, lighting, building and sanitation committees.

A village map has now been completed and presented to the board by the Plan Commission appointed by Mayor Jeffords. The map is a part of the new zoning ordinance drawn up by this commission under chairman Stanley Mageira, with the assistance of Pace Associates.

The commission had previously presented board members with a copy of the new proposed zoning ordinance. Completion of the map is the first step in the master community plan for Tinley Park and will serve as a foundation upon which to build future plans for the village. Other members of the Plan Commission are Harry Dean, Don Trylovich, John Dolk and Elmer Siemsen.

In presenting the map and the ordinance with recommendation to adopt, the commission pointed out that the ordinance takes into consideration the continued growth of Tinley Park and presents an organized plan to meet the needs of such growth.

Notice of a public meeting on this ordinance and another

drawn up regarding a request by Natchez Building corp. and A. M. Sunrise Construction Co., contract purchasers of property recently annexed to the village, that it be zoned (A) residential, will appear in next week's issue of the Tinley Park Times.

Permanent Committee

The board will meet with members of the Plan Commission to discuss the possibility of this body serving on a permanent committee to study all zoning ordinances.

In the past, a separate committee has been appointed by chairman Jeffords. As many such ordinances are being prepared, board members concluded a permanent committee would be a more feasible way of handling them.

A license to operate a drugstore, selling packaged liquors, to be located at 170th and Oak Park ave. was requested by Loseff-Walgreen Corp.

Such license will be issued after investigation. On questioning by board members it was revealed it is necessary for an individual to be a resident of the village to obtain such a license, but corporations were exempt in this respect.

Tom Hatfield, recently appointed councilman to replace Art Lehman and chairman of the license committee, discussed with board members and village attorney, Raymond Peiper, the ordinance covering business licenses. He feels stricter regulations should be made as to deadline payment on fees and a penalty established. Also, that periodic inspections of such places should be made.

May Ban Rubbish Fires

Codification of business licenses has previously been discussed by the board. At the present time every business comes under one ordinance. The attorney suggested that each business be codified and separate ordinances

drawn up on each.

Board member Robert C. Lillie requested the board consider an ordinance covering burning of rubbish in the village as some residents are burning articles which should be picked up by a garbage collector.

On a complaint made by a local resident that a fire was creating considerable smoke and obnoxious odor, President Jeffords discovered on inspection it was caused by the burning of rubber tires.

The board will consider an ordinance covering burning of rubbish in the village as suggested by Lillie.

Speed Timer

Many citizens and board member Henry Bettenhausen have complained to Mayor Jeffords about the electric speed timer being operated by the police department.

Bettenhausen, who voted for the purchase of the timer, feels that police should season mercy with justice by a verbal reprimand rather than a ticket when local citizens are tagged for speeding, in cases where it is not excessive.

Bettenhausen was granted permission by the board for the Recreation Commission to operate a fall festival in Memorial Park Aug. 30, Sept. 1, 2 and 3.

Members also voted to buy the fan Bettenhausen installed in the Municipal building at a cost of \$60.

A committee of Lillie, Childs, and Hatfield will consider the purchase and installation of an air conditioner in the Village clerk's office.

An additional fund will be opened at the Bremen State Bank entitled "Municipal Sales Tax Fund," within which to dispose all funds received from the State of Illinois on the retailers occupational tax. In June a total of \$1,599.75 was received from this source.

Mildred Juergens, James Gross Recite Vows At Double Ring Ceremony in Zion Church

Zion Lutheran church in Tinley Park was the scene of a pretty summer wedding June 23 when Miss Mildred Juergens, daughter of Mr. and Mrs. Otto Juergens of 7014 W. 173rd place, Tinley Park, exchanged nuptial vows with James Gross, son of Mr. and Mrs. Joseph Gross also of Tinley Park.

The double ring ceremony was performed in a candlelight service with the Rev. Randolph Hahn officiating. Palms and white gladiola decorated the chancel.

Mrs. Melvin Rensink, organist, played selection before the ceremony and accompanied Mrs. Randolph Hahn, when she sang "The Lord's Prayer" and "Take Thou My Hand."

The bride was beautiful in a gown of net with over-all lace embroidery. A tiered veil, finger-tip length was attached to a tiny crown. She carried a white bible centered with an orchid, with showers of stephanotis. A single strand of pearls, gift of the groom, was her only jewelry.

In white net, floor length gowns, with picture hats, three attendants preceded Miss Juergens to the altar. Miss Lucille Juergens and Mrs. Robert Allen, sisters of the bride and Miss Mildred Topolski of Blue Island. Junior bridesmaid was Betty Lou Meyer, niece of the bride. They carried bouquets of American Beauty roses.

John Galik was best man.

Ushers were Donald Karl and William Stronner, all of Chicago.

Mrs. Juergens wore a black and white shantung dress, while Mrs. Gross was gowned in pink sheer. Both mothers wore pink and white carnation corsages.

A reception was held in the parish hall of the church following the ceremony for 100 guests. The buffet was centered with a three-tier wedding cake.

The new Mr. and Mrs. Gross left for Colorado and upon their return will make their home in Tinley Park.

The bride is employed in a Blue Island store while the groom is with Link-Belt company in Chicago.

Several Bridal Showers Given for Mildred Juergens

Miss Mildred Juergens was feted at several bridal showers recently, the first of which was given by Mrs. Kenneth Schmude at her home for relatives and friends of the bride. The buffet table was centered with an original creative centerpiece by the hostess of tulle and net with a small bridal couple standing beneath a set of engagement and wedding rings. Many lovely gifts were presented to the bride elect.

A personal shower was given for Miss Juergens in Joliet by her sister, Mrs. Robert Allen.

The home of Mrs. Otto Juergens, Jr., in Calumet City was the scene of another lovely miscellaneous shower for Miss Juergens with Mrs. Edna Meyer, and Mrs. Hilda Feigal as co-hostess.

Currently it costs the oil industry an average of \$1.08 to find each new barrel of oil in the ground.

"100 Plus Wiring" Goal of All Homes, Says Utility Official

A feature in many new homes in northern Illinois this year will be "100 Plus Wiring," as local builders cooperate in a new modern wiring effort of Public Service Co.

According to V. L. Hahneman district superintendent for Public Service Co., the utility's "100 plus" endorsement will identify new homes which are equipped with 100-ampere service and have an electric range in the kitchen. Each home also will have eight or more 120 volt circuits.

"Every 100 plus home will be wired for modern electric living," Hahneman said. "The 100 ampere fuse box with three service entrance wires from the main power line will provide an ample supply of electricity for today's conveniences. There also will be capacity in reserve for future additions such as air conditioners and clothes dryers."

The utility official pointed out that as homeowners continue to

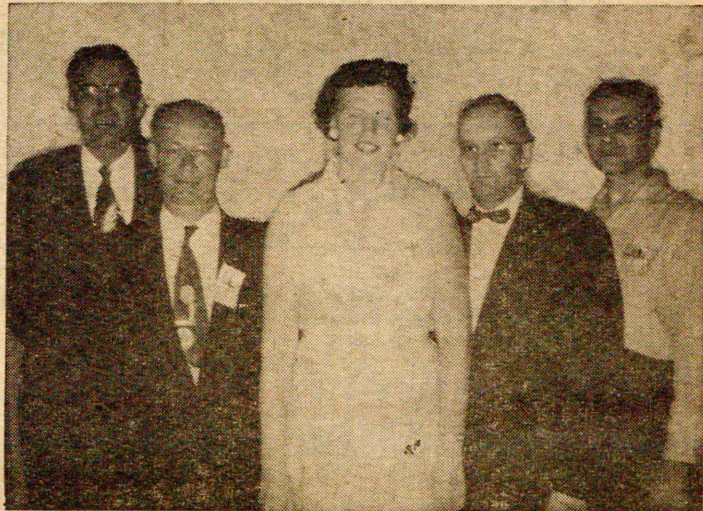

improve their standard of living with more and more electrical appliances, they require more electrical capacity for their homes. Today there are more than 60 different kinds of electrical appliances available for home use. Unless a home has 100 ampere service with a sufficient number of circuits, it can accommodate only a few of these modern work savers and comfort makers.

According to Hahneman, the 100 plus plan for new homes will be in tune with the revised electrical codes of several northern Illinois communities who now require a minimum of 100-ampere service for each residential occupancy. The same service entrance minimum also is recommended by the National Adequate Wiring Bureau and the National Association of Home Builders.

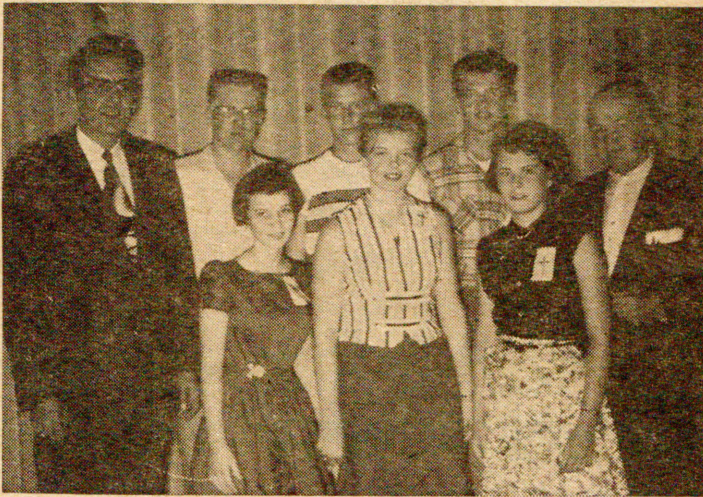

Endorsement of 100-plus wiring for new homes marks an extension of the utility's wiring modernization program.

Lutherans Conduct Training Course

The annual leadership training school sponsored by the Illinois district of the American Lutheran church which was conducted at the Zion Lutheran church in Tinley Park last week attracted some 125 young people between the ages of 16 and 19. The staff in charge of the training classes shown above was made up of four pastors and Miss Cora C. Schafer, of Frankling Grove, Ill., who was the registrar. The pastors are left to right, the Rev. Randolph Hahn, of the Zion Lutheran church; the Rev. Edward Krempin, of Calgary, Alberta, Canada; the Rev. Lee Roy Brandes, Wichita Falls, Tex., and the Rev. Don R. Bachman, Indianapolis.

Pictured above are some of the young people who attended the Lutheran training course. The Rev. Mr. Hahan, pastor of Zion Lutheran church, is at the extreme left of the group, and Harry Trevarthen, executive secretary of the Tinley Park Chamber of Commerce, is at the extreme right.

Mr. Trevarthen presented pencils, brochures and other mementos from the businessmen of Tinley as souvenirs of their visit here. The young people shown here, left to right, are (top row) David Keammeler, of Valparaiso, Ind., John Milton, of Chicago, and Allen Marske, of Clinton, Ill., (bottom row) Sharon Perkins, of Jasper, Ind., Judi Park, of Flanagan, Ill., and Lynn Anderson, of Chaney, Ia.

Notice of Proposed Change In Gas Schedule

NORTHERN ILLINOIS GAS COMPANY hereby gives notice to the public that it has filed with the Illinois Commerce Commission on June 29, 1956, the following proposed changes in its Rate Schedule G:

1. The list of incorporated communities covered by the Schedule is brought up-to-date.
2. Provision is made for supplying natural gas to residential and commercial customers for the operation of dual-fuel space heating equipment.
3. The restrictions on uses of gas under Rate 7 (37), Industrial Volume Gas Service—Off-Peak, and Rate 8 (38), Industrial Gas Service, are liberalized.
4. Gross charges for large-volume industrial use are reduced, with no change in net charges.
5. The application of the adjustment for cost of purchased gas is modified with no change in the total charge to any customer.

PUBLIC NOTICE Notice of Proposed Changes in Schedule

COMMONWEALTH EDISON COMPANY (Public Service Company Division) hereby gives notice to the public that certain revisions in Schedule E-3 have been filed with the Illinois Commerce Commission on June 26, 1956.

The filing proposes changes, to be effective with meter readings on and after October 1, 1956, in the meter rental charges set forth in Rider 7 for metering equipment in excess of that normally furnished by the Company, to reflect changes in the cost to the Company of furnishing the additional equipment.

Also proposed is the cancellation of Rider 19, Electric Service for Defense Customers, which now applies to only two of the Company's industrial customers. Service henceforth would be supplied to single-purpose defense plant customers on the same terms as to other customers. This cancellation is proposed to be effective on July 27, 1956.

Further information with respect to these changes may be obtained directly from the Company or by addressing the Secretary of the Illinois Commerce Commission in Springfield, Illinois.

A copy of the proposed changes may be inspected by any interested party in any business office of this Company.

Explains Terms Of Farm Bill

Farmers still have a farm program for this year even tho President Eisenhower vetoed the 1956 farm bill.

"Apparently there has been some misunderstanding about the effects of the veto," points out L. H. Simerl, agricultural economist at the University of Illinois.

"The veto does not mean that we do not or will not have a farm program," he said.

The 1956 farm program will be very much like that in effect last year, reports Simerl. As in 1955, it will be carried out largely under the permanent laws that various Congresses have enacted—notably the Agricultural Acts of 1938, 1948, 1949, and 1954.

These acts are basic laws that define parity prices, establish price support levels, provide acreage allotments and marketing quotas and provide for a surplus disposal program.

A summary of the major items in the 1956 farm program follows:

CORN. Price support will average \$1.50 a bushel for corn grown under acreage allotments. A lower level of price support, not yet known, will be available for corn not grown under acreage allotments.

Carryover stocks of corn next October 1 will be more than 1.1 billion hushels, or about equal to average annual production in Iowa and Illinois combined.

SOYBEANS. The price support level for the 1956 crop will average \$2.15 a bushel, compared with \$2.04 for the 1955 crop. There is no surplus of soybeans and the carryover next October will be only a few million bushels.

WHEAT. Price support will average \$2.00 a bushel for wheat grown under acreage allotments. The carryover next October 1 will be about 1.1 billion bushels, equal to one average crop and enough to supply the nation's food needs for more than two years.

Uncle Sam is pushing exports of wheat by (1) selling to foreign

buyers at 80 to 93 cents a bushel less than domestic prices, (2) selling for foreign currencies, (3) selling on credit and (4) giving wheat to needy, friendly peoples.

In spite of these efforts, exports are declining and may not exceed 250 million bushels during this marketing year.

OATS. As announced earlier price support remains at 59 cents a bushel. There are no acreage allotments. A carryover of around 360 million bushels, about one-fourth of an average crop, is expected on July 1.

SORGHUM, GRAINS. Price supports will be \$1.80 a hundred pounds. There are no acreage allotments or marketing quotas. A carryover of about 75 million bushels, one-third of a crop, is expected next October 1.

Production of sorghum grains, a feed that is a good substitute for corn, is increasing rapidly in the south and west on land taken out of wheat and cotton. Since last July 1, foreign buyers have taken more than 50 million bushels of sorghum grains, largely in place of corn.

BARLEY. The price of barley will be supported at 93 cents a bushel. A carryover of around 130 million bushels, one-half a crop, is likely next July 1.

DAIRY PRODUCTS. Prices for manufactured dairy products (butter, cheese and dry milk) will be supported at levels to reflect to farmers \$3.20 a hundred pounds for milk and 58.6 cents a pound for butterfat. This support price for milk is 10 cents a hundred pounds higher than last year, while the support for butterfat is 2.4 cents a pound higher.

During this past year the government purchased for price support dairy products equivalent to about 3 per cent of all milk produced. Milk production so far this year is about 12 per cent greater than last year.

OTHER PROGRAMS. Several "unseen" farm programs are helping to support farm prices and income. These are some examples: (1) Public Law 480 (1954) provides for the disposal of farm surpluses by sale for foreign currencies (rather than dollars usually required) and for grants to needy friendly peoples. One billion dollars was authorized for this program. (2) Fifty million dollars is being spent this year to increase the use of fluid milk in school lunches. (3) Four hundred million dollars will be used to support prices of perishables.

Sportabout

by

JACK MAYPOLE

It is difficult for an older person to pause and recall the tremendous, overwhelming wanting of a little fellow of 10 or 12 years or younger. For some of us it is a long way back. But we can recall, if we take the trouble.

It is this wanting, for a toy, for a title or even for dad's razor that can make a small man achieve many things. On the other hand, it can upset him because with the wanting may come disappointment, and with it the juvenile heartbreak that can be so crushing. We older heads know that time can repair most of our heartbreaks but somehow the little guys don't get that idea. Their world is right now, not tomorrow.

The factor of emotional upsets of this nature has entered into discussions of Little League play with the report of Dr. John Lester Reichert of Chicago, chairman of a committee on school health for the American Society of Pediatrics.

Dr. Reichert's report held generally that Little League competition is not harmful at the local levels but that the naming of "all-star" teams and conducting a "world series" could be harmful to the emotional patterns of behavior for those 11, 12 or younger.

Little League officials came back with a reply from Creighton J. Hale, director of league research, who conducted a survey of the identical problem at the last world series of the small fry. He concluded that it was safe to permit boys of 11 and 12 to compete.

Dr. Reichert also suggested that failure to win and to make teams might cause negative complexes in some of the younger boys. The Little League brass pointed out that it now has a "minor" league setup to take care of the beginners.

The doctor and the league officials were in accord on one point however. Both agreed that more parents and other people should turn out and take the

TINLEY PARK TIMES

Thu. July 5, 1956 Sec. 1 Page 15

lead in guiding play.

This seems to us to be the nub of the situation. No youth movement we ever have seen has been worth more than those who direct it. The little fellows are still little fellows and unless they have the confidence that generous and understanding aid can give them they are going to warp their still pliant life patterns.

Little League officials point out that they have fully considered this problem and are creating a course of aid for parent-volunteers to help them understand the psychological, physiological and sociological problems involved.

If we elders will cooperate in taking this training it seems to us that the Little Leaguers should continue to do well under sound supervision and that a fine juvenile sports program can grow.

(Hear Jack Maypole over WJJD at 8:40 a.m. M-F)

Tinlev Girls Entered In All-Star Softball Game Sunday, July 8

A large attendance is expected to attend the South Suburban Girls Softball league all-star game which starts at 7:30 p.m. Sunday, July 8, in the Markham softball diamond, 160th and Central Park ave. (3600 W.)

Teams participating are from Tinley Park, Oak Forest, North Harvey, Lemont, Beecher, Lansing, Kankakee, and Crete.

The following five players are entered from the local team: J. Gray, S. Balzhiser, C. Meyer, M. Yunker, and S. Knazarski.

The Tinley Park team, which is sponsored by the Teen Club, trounced Lemont 25 to 7 Monday, June 24 in a practice game.

Mokena, Frankfort Tie for Lead in Babe Ruth League

Mokena Babe Ruths lost a tough game to Manhattan. Wandless, Manhattan's pitcher, kept most of Mokena's bats quiet by allowing only 4 hits. Del Yunker's big bat accounted for all of Mokena's runs with his triple and double in three times at bat.

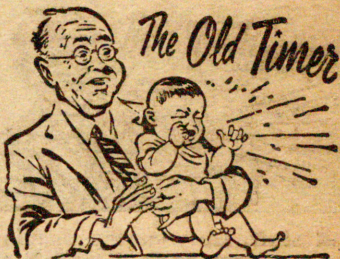

Lee Yunker started and pitched good ball until the fifth inning when he lost control and was relieved by Haehnlein who pitched out of the jam, but ran into control trouble himself in the seventh inning when Manhattan scored four runs to win 6-5.

The Mokena team tied with Frankfort for 1st place in the Tri-County league. They beat Frankfort by 13-4 in a recent game.

Duane "Slub" Erickson was called on to pitch this game and he limited Frankfort to 5 scattered hits and struck out 7 while Mokena was scoring 13 runs.

In the game with Orland Park Mokena scored eight runs on 12 hits in the last five innings.

Lee Yunker started for Mokena and was relieved by Jerry Haehnlein. Yunker ran into control trouble in the second inning at which time Haehnlein came to the rescue and throttled Orland Park to one run and one hit in the last five innings, striking out nine and walking two.

"Think how a mother kangaroo must hate a rainy day when the kids can't play outside!"

Tinley Teen Club Reorganizes In 1952; 110 Active Members

The Tinley Park Teen club was reorganized in 1952 through the efforts of Joe McCarthy who still is the club's only advisor and teacher in all of its activities.

McCarthy interested members of the then existing Tinley Park Civic club, in reorganizing a club for teens to replace one which had disbanded. Besides McCarthy, Walter Seyffert, past commander of the Veterans of Foreign Wars, post No. 2791, and Mr. and Mrs. Milton Carlson, are responsible for organizing the teen club as it operates today. Seyffert still takes an active part in the program.

Club Officers

A Valentine dance in February of that year started the program rolling.

At the first election of officers held in September, Dan Czernic was elected president. Other officers were Don Goesel, vice president; Joan Beck, treasurer; and Beverly Pokorny, secretary.

The second year's officers were George Ficker, president; Bob Mason, vice president; Lori Smith, secretary, and George Wagner, treasurer.

The third year the following were elected: Tom Noonan, president; Roy Mortenson, vice president; Mary Ann Ficker, treasurer and Jackie Panazzo, sec.

This year's officers are Roy Mortenson, president; Herb Hultsch, vice president; Peg Gallagher, secretary, and Diane Cupp, treasurer.

Sport Activities

Sports activities for the girls include softball and basketball. Last year these teams won second place in the South Suburban league. They are coached by William Bingham and Norman Ryer.

The boys enjoy basketball, softball, wrestling and rifle shooting. There are bowling teams for both boys and girls.

The wrestling team is coached by Dave Vance, assisted by Al Heller.

Fifteen teenagers are active in the rifle club. Their instructor is James Marshall.

Harold Coley is coach of the 12 bowling teams for a total of 60 participants in a mixed league of the American Bowling Congress. Herb Hultsch is president of the bowling club. One

team placed 92nd in national competition.

Social Activities

Dances are held at the VFW hall thru out the year, beginning in February with a Sweetheart dance. In June the Teen club invites graduates of Tinley Park schools to a dance in the club rooms. This year a Sadie Hawkins dance was held. Trips to the sand dunes, splash parties, hayrides, and roller skating are some of the pleasant activities.

The club holds a business meeting each Thursday evening in the VFW club rooms, 172nd and Oak Park ave.

Club dues are \$1 a year. When a girl reaches the age of 16 and a boy 20, they become honorary members and receive a gold membership card. At the present time there are 110 active members and 81 honorary members.

The youth take part in fund-raising activities. During the VFW carnival this year, they rented a booth, making a profit of \$93.

During the Fall Festival, sponsored by the Tinley Park Recreation commission, a Mr. and Miss Tinley Park are chosen in a popularity contest to reign over the festival. The teens take an active part in village administration during Youth Week, holding office and serving as the governing body.

Friend of Teenagers

Joe McCarthy, whose life is dedicated to working with and helping teenagers, believes that delinquency is caused mostly by lack of interest in the home. Where children are taken too much for granted and parents are not genuinely interested in their activities, they find undesirable outlets for recognition. The Teen club gives youngsters the feeling of belonging. Activities provide a proper outlet for their energies.

McCarthy, the friend of the teenager, has only one purpose in life, and that is to help the youngster who needs it most. The many years he has been working with teenagers has given him a keen insight to their problems. When a boy or girl needs help, he is their confident and advisor. The Tinley Park teenagers are very fortunate to have such a champion to their cause, and a friend.

Young Hurler

Jerry Miller, of the pitching staff of the Tinley Park Police league team, has been showing

ood stuff. He won the opening game against Park Forest 7 to 1. In the game last week which Tinley lost to Matteson, Miller pitched the last 2 1-3 innings. He came in the seventh inning after two men were on, walked one and allowed one hit which scored two runs. For the rest of the game he held Matteson hitless. Matteson won 5 to 1.

(Times Photo)

For the past 18 years, our proved reserves of crude oil have been equal to 13 times the amount produced.

American farmers today have nearly 20 billion dollars worth of equipment that needs fuel and lubricants from the oil industry.

Honesty Best Policy

Jim Monetervielle, of Park Forest, took a long lead toward second with intent to steal in the game against Tinley Park Police league team but changed his mind fast when he caught a move that the Tinley pitcher was about to swing around for a pick-off play at first. Jim hit the dirt in a Rivera slide and just got in ahead of the ball. Jerry O'Neil is the Tinley first baseman.

(Tinley Park Times Photo)

Baseball Program For Small Fry Began at Tinley Six Years Ago

Don Boston originated a baseball program for boys in Tinley Park six years ago. He approached Bud Baker of Peotone, a former major league player and they worked out a schedule, agreeing to follow the rules and regulations of Little League baseball. Scheduled and practice games were played the first year, but no league was formed until the following winter and then it was as the Small Fry instead of the Little League because of certain conditions that existed and for the matter still exist.

Reinie Meyer coached the first team and all of the necessary equipment was supplied by Mr. Boston.

The second year of play the Wilco league was formed consisting of teams from Will and Cook counties. The team was equipped with suits thru the generosity of the Service Bakery and they received financial support from the Tinley Park Recreation Committee.

Eric "Moose" Nasebandt, former minor league ball player, took over the second year team as coach.

The Small Fry reached the league finals and won a trophy each year. All of the original players on the first team are still playing baseball on local teams.

The present team is coached and managed by Jack Casey and Francis Meakim. Two home games remain on their schedule, on July 12 and 23.

Expand Program

Besides the regular traveling team, four additional teams have been formed into a town league this year. The teams and managers are: Cubs, Harold Anderson; Braves, Robert Jirka; Sox, Ken Banks; Cards, Ralph Kimmel. General manager is Phil Virtue.

These teams will play two games July 4, starting at 1 p.m. Local merchants, the Recreation Committee, and the Tinley Parks Lions club are responsible for the new uniforms with which all five teams have been equipped.

The present Small Fry team is leading the northern division of the newly formed Tri-County league at the half-way mark.

Pony League

Three years ago a Pony league was formed for boys 13 thru 15 years old. Moose Nasebandt coached this team for the first two years and its manager was

Voris Miller. Under their tutelage, the team were league champions both years, having lost only three games in that period. Seven of the players are now on the squad of the Bremen Community High school baseball team.

A Babe Ruth league has now replaced the Pony League. This and the Small Fry league has been formed into the Tri-County league, comprising Cook, Will and Kankakee counties. Reinie Meyer is coaching the Babe Ruth team.

Officers of the Tri-County league are Warren Baker, Peotone, president; William Zinn, Orland Park, vice president; Al Rodger, Tinley Park, secretary-treasurer; and Wendell Morrison, Frankfort, commissioner.

Police Team

Another baseball team was formed this year in Tinley Park. It is sponsored by the police department under chief Harold C. Moore and is coached by William McBurney, assisted by Joe Diamond. They will play in the newly formed Police league of Cook county. The police conceived this league as a means of helping boys ages 15 thru 17, as they have more occasion to come in contact with boys of this age bracket than any other.

Six teams are entered in the southern section. At the end of the season there will be playoffs by winners of northern central and southern sections.

North, South Divide Wins in All-Star Tilts

The Northern Small Frys won their second consecutive annual All-Star game in the Wilco League Saturday at Manhattan but victory in the Babe Ruth encounter went to the star team from the southern end of the loop whose pitchers hurled a no-hitter. Both games were shutouts, the Small Fry score being 4-0 and in the Babe Ruth tilt the final count was 6-0.

The Babe Ruth league of this year was known as the Pony league last season, and last year the Northern Pony outfit won.

This year, however, the Northerners couldn't buy a hit. Both teams played good ball and at the end of six innings it was a scoreless tie. Then in the seventh and last frame the Southern Section counted six runs on three hits, three walks and three errors.

Palmer led off with a single,

Matteson Beats Tinley 5 to 1

By Al Rodger

The Matteson Police league baseball nine forged a neat 5-1 victory over their erstwhile Tinley nemesis to take the lead in the circuit.

Buchmier the winning pitcher yielded seven hits while Ron Stege allowed only 4 in 6 2-3 innings and Jerry Miller one hit in 2 1-3 innings for Tinley.

Matteson scored in the first inning when Dehnam homered between center and right field.

In the third inning, Muffley singled, stole second and scored long fly after a circus catch, when Miller dropped Seaman's

Dehnam opened the fifth inning with his second hit, stole second and third and crossed the plate when Hugg bobbled J. Buchmier's hard grounder.

Matteson's final two runs came in the seventh inning when Buchmier singled, Pieper walked, Miller relieved Stege at this point and walked Becker to fill the bases. Schuling singled, scoring Buchmier and Pieper. Wilke struck out to end Matteson's scoring.

Tinley's only run came in the ninth inning when Stege pulled a long drive over the right fielder's head for a home run.

The home team expects to return to winning form next Sunday when they travel to Robbins for their next tilt.

High fanned. Bisher singled, Palmer stopping at second. In an attempted pick-off at first Yunker threw the ball into right field, advancing both runners. Whelung walked, filling the bases. Quigley was safe on a error with Palmer scoring what could have been the winning run but the next man, Esson, walked forcing in Bisher and leaving the sacks still loaded. Kinning struck out. Mittons, walked, forcing in another run and two more came in when Hilt lined a single to left center. Palmer struck out but got to first on a dropped ball and another run was scored on an error before Bisher struck out to end the inning.

Harry Fee, of Mokena, managed the Northerners.

Teams comprising the north section of the league are from Mokena, New Lenox, Manhattan, Frankfort, Tinley Park and Orland Park. In the southern section are Beecher, Peotone, Steger, Matteson, Grant Park and Momence.

The Northern Small Frys used the required number of pitchers, three, with each working two innings, to vanquish the Southerners. Bill Robbins of Manhattan took the first tour of duty, followed on the mound by Pat Warren of New Lenox, with Ronnie Yunker, of Mokena winding it up.

Tom Robbins, a brother of the pitcher, distinguished himself by ending one inning with a throw from deep in his territory to the plate in time to nail a runner dashing in from third, and he began the next frame with a home run.
